PELLOW MEN OF THE NEGRO RACE, Greeting:

11. Ne. 10

It is amazing to contemplate how dull and dead is the accredited intelligence of the race. I mean that intelligence which is supposed to be reflected by the academic so-called educated leaders, who have set themselves up as the only ones of advise and to lead. When it is considered that we are living in a world of change and progress, we will expect our leaders to be sufficiently resourceful and inventive as to present to us from time to time a sober and logical code by which wa should govern ourselves.

Ains, how much to the contrary. Today, whilst the other races are presenting to the world scholarly and brainy leaders, who are in themselves evelving new ideas, laying out new plans by which office races and nations will be saved and salvaged out of the threatening wreck of humanity, we find our so-called leaders still basking in the sunahine of ease and contentment such as of the past century.

Uncle Tom, though he was a slave and felt in every respect the sigors of slavery, was quite contented to be a patient and loyal servant. Even though we nave been enuncipated from chartel slavery it is apparent that our so-called leaders are still "Uncle Toms" in their layalty and obedience to the leadership of others, which leadership they try to inflict upon the masses of our race.

I am sorte to admit it, but neverthaless it is true. Lym of the opinion from hisety correspondence with collecting that we have not within our race two enders who really merit the serious canaderation of any civilized and progressive roup. This is a bold statement to make, when it is considered that we have in ur ranks men who have graduated from probably some of the best universities in he world, with their degrees of B.A., M.A., Ph. D., D.D., M.D., etc.; but may I sot say that those apparently educated men are mere parrots, who, after leaving he universities, go out into the world and repeat the interances of their masters, without ever attempting to give to the world, and especially to their race, an eiginal thought? Such has been the case. All the educated men we have had, ith very few exceptions (men such as Blyden and Bishop Turner), have all been aloves of the Uncle Tom type, to the white man's way of thinking.

What considered that the Negroes of America and the West Indies have

had between them three-quarters of a century of freedom, during which time they ware permitted to study in the best schools of the world, and that up to now they have not been able among themselves to show any marked progress on their own account, it is but reasonable to admit that there is something wrong with the Negro.

We have feathered ourselves to believe that we have achieved a great deal. In fact, I have read of American and West Indian Negro authors and newspaper men, as well as I have heard the statement of our so-called leaders, in which they have decisede that we have achieved wonders in the eighty and fifty, respective years of our freedom. They have stated that we have developed more than any other people in a like period of time, and have fathered us to believe that we have done more than any other people could have done within the period allotted to us. How farcical, how untrue, when we come to comider the real facts of the case! The Negro sizes his emancipation in this western world has done nothing striking on his own account, with the exception of his later day movements covards. The deathly of Empire. Take it in industry, whise has the Negro done since like emancipation on his own account? Work sanisot point to one great industrial astarpaisable one great factory, to one great industrial astarpaisable one great factory, to one great industrial astarpaisable one great factory, to cannot point, since his emancipation to this practic day, at any great constructive interpreted facts believe stanted our his content. Abrigaçõe la esperanza de que habra una harmandad universal en ceta gran, familia humana; cressas que el tempo llegará cuando el negro, el amarillo y el blanco se encuentren en los mismos términos; cuando todos y cada redacte una su uno estrechen fos brazos y digan, "bienvenido, hermano." Tales tiempos vendran cuando el Negro se recdifique política, educativa, industrial, etc., a la altura de los demás

Cuando el Negro por su propia iniciativa constituya su propia nación; cuando presente al mundo sus propios financieros; sus capitanes de industrias; sus presidentes Tros sentinos mily optimistas al tratar de nuestros y profesores de universidades; sus científicos y artistas; sus políticos y estadistas; sus soldados y marinos; sus políticos y estadistas; sus soldados y marinos; sus funciones; sus políticos y estadistas; sus soldados y marinos; sus funciones; sus políticos y estadistas; sus soldados y marinos; sus funciones; sus políticos y estadistas; sus soldados y marinos; sus funciones. presto, muy promo obtendrá sus derechos y de iniciativa construya sus monumentos de industria, de and leudel man projuiços en su contra, por parte de arte y de literatura; cuando pueda señalar no a un Westminster Abbey en Londres como su catedral, sino a Abbey cio y la industria de otras naciones como su catedral, sino a Abbey cio y la industria de otras naciones como la fuente de su esperanza que tengan relaciones contractuales diname del alma y de la mente del hombre que trabaja Richard Allen en Africa como la fuente de su esperanza religiosa; cuando pueda señalar no a la estatua de George Weshington en Amales ellas de Conge Washington en América, sino e la estatua de Toussaint no concluir entre si ningún tratado L'Overture en Africa como la inspiración de su abilidad militar; cuando pueda señalar no a la estatua de Earl de Chatham en Londres como la inspiración de un gran estadista, sino a la estatua de Booker T. Washington en la vecindad de Timbuctoo de la cual ganara la inspiración de servicios mas elevados; cuando pueda señalar no a la estatua de Bismarck en Berlin por la esperanza de una visión suprema, sino a la estatua de Frederick Douglass en las riberas del Nilo.

Entonces el Negro podrá elevarse al nivel del amarillo de Asia y al blanco de Europa, y los tres reunidos en la Mesa de la Igualdad podrán cambiar de impresiones. Creemos que tales tiempos vendrán, pero no accidentalmente: la Providencia no ha de trabajarnos un plan, el trabajo de los planes queda a nuestro cargo. La Provitrauajo de 108 pianes queda a nuestro cargo. La Provi-idencia nos da inteligencia, fuerza física 6 virilidad, y eso y jurisdicción de China han de ser es todo lo que nos puede dar.

El Ser Supremo nos ha dado un alma, nos ha dado sentidos; fiagamos buen uso de ellos. Si no podemos obtener iniciativa propia, asimilémonos la iniciativa de los demás. Observemes lo que hizo Bismarck por Alemania, Garibaldi por Italia, Pitt por Inglaterra, Washington por América; y nosotros, imitando su ejemplo, hagamos algo er Africa coportando los propósitos de nuestra gran Organización. La Asociación Universal para el Adelanto de la raza Negra.

Al empezar el nuevo año de 192% hemos de organizar una nueva campaña con el objeto de adquirir 2.000.000 más de miembros para nuestra Organización, cuyo número hemos do cubrir al finalizar dicho año. Por consiguiente, fodo lector del Negro World, como medio de cooperación para este cause, debe propagar, predicar y convertir hombres ción de la politica común de los mujares de questra raza en los ideales que perseguimos.
