# GRAND OPENING OF THIRD INTERNATIONAL CONVENTION OF NEGRO PEOPLES OF THE WORLD

FELLOW MEN OF THE NEGRO RACE, Greeting:

On Tuesday, the 1st inst., the Third Annual International Convention of the Negro peoples of the worldopened in New York. It was a day never to be forgotten. Hundreds of thousands of people participated in and viewed the great celebrations that marked the opening day. Men and women traveled thousands of miles to take part in the greatest demonstration of modern times. The spectacle of the parade, the opening service at Liberty Hall and the grand demonstration at the 71st Regiment Armory at night will be talked of for many a year.

### The Negro at the Helm

The whole demonstration was an inspiration to the Negro race. It was a presentation, as intense as it was orderly, of the viewpoint and the hope, the ambition and the determination of the present-day Negro. No man with one drop of Negro blood in his veins could dwell upon the epochal event unmoved. It recalls to mind the ancient glories of Ethiopia and points the way to a brighter future. The grand significance of the whole affair resides in the fact that in all that was done and in all that was said the Negro played the leading role. Unlike many other Negro conventions and meetings where men of alien races acted as chairmen, masters of ceremonies and principal speakers, this occasion gave to the world conclusive proof that the Negro is capable of handling his own affairs. The Universal Negro Improvement Association is determined to teach the Negro race self-reliance, and no one who witnessed the events of the great opening day could come to any other conclusion than that the Negro has made a wonderful step forward within the last five years.

### Beware of Schemers!

The convention is just started, and, from all indications, we are going to have a month of constructive legislation. The calibre of the deputies and delegates to this convention is such as to

Improvement Association at large that great will be the results of this congress. It is true that among the many delegates and deputies will be found unscrupulous and unworthy men who will try to put over their own personal schemes and who will endeavor to exploit the innocence of the majority of the delegates and deputies for their election to office, but the membership can rest assured that no stone will be left unturned to unearth the plots and schemes that will be engineered by ignoble men to get into positions which they are not competent of filling.

### ' Come Now

The items to be discussed are of vital interest to the race and will call for the highest intelligence and statesmanship on the part of the delegates and deputies to carry out effectively. the highest intention behind the program. Those delegates who did not reach New York by the 1st of August are requested to make immediate arrangements for attending the remaining sessions of the convention, which will sit for thirtyone days and thirty-one nights, closing on the 31st inst. It is expected that over one hundred thousand delegates and deputies will attend during the month. Those who can make it possible to attend the early sessions are advised to do so, as important committees will be appointed and elected during the early stages of the convention.

### Branches Must Reflect Spirit

All Negroes and members of the association are asked to contribute their financial and moral

support to the organization during the entire month of August. A large amount of money is needed to finance the work of the organization during the present month, and members and friends will do well to send in their contributions to headquarters. Each Division and Chapter of the Universal Negro Improvement Association should hold continuous meetings for the entire month, and a concerted program should be rendered on the night of the 30th for the purpose of raising funds-to help the parent body put over the program that will be delegated to it by the convention. All officers of divisions are hereby requested to make immediate arrangements for the holding of such a function on the night of the 30th in their respective localities.

### The Grand Court Reception

On the night of the 10th inst. His Highness the Potentate will hold the Second Annexi Court Reception at Liberty Hall, at which time he will confer upon several of the most distinguished characters of the race certain honors and marks of distinction. This function promises to eclipse anything of its kind held in any, part of the world. It will indeed demonstrate the renewed glory of Ethiopia.

### Moral and Financial Support

All members and friends and well-wishers of the Universal Negro Improvement Association are again reminded to do their best, morally and financially, in helping the organization. Each and every one should contribute to the African Redemption Fund and the Convention Fund for 1922. You can send your donations addressed to the Registrar of the Universal Negro Improvement Association, 56 West 135th Street, New York City.

With very best wishes for your success. I have the honor to be

the Negro's status in American life and society was the same as before. What was the trouble? In the past individual and collective effort, Building up enterprises and institutions of various sorts have done more to lift the status of a race or nation in the world's regard than making eloquent speeches and writing philosophical dissertations have moulded sentiment and made history in more than one crisis in human affairs.

### The Black Man's Case

Then, again, in previous racial conventions the writers and orators usually fired in the air, because they did not center their fire upon the strategic position of the South. The Negro champions laid emphasis upon the major premise and the conclusion. The South laid emphasis upon the minor premise. The Negro champions asserted "All men desire equality of rights and liberty of opportunity. Therefore, we desire equality of rights and liberty of opportunity." The South comes back and says: "Yes, but you have overlooked the minor premise. You are surely we can "boast" of one who had something to do with the "anglinot full-fledged men. You occupy an intermediate stage between the cizing" or the race.

In the early part of this century many families from Eastern Virginia settled in Southern Indiana along the Ohio River, below Louisville. Among them was a gentleman of noble appearance, tall and the exact counterpart of Washington. The old emigrants who came out with him always declared that he was the son of Washington. He naturally rose to the surface of society and acquired an influential position in public affairs, having been a United States Senator in 1812-13, and afterwards Governor of Indiana Territory for three years as successor to General Harrison. His biography was written a few years ago by his son-in-law, who, instead of particularizing his ancestry, merely says he was born "of respectable parentage on the banks of the Potomac, July 9, 1750." (Washington was then 18 years old; married in 1759.) His biographer adds, "His personal appearance, both as to features and form, was so attractive as to be a subject of remark wherever he was known." He was appointed by Washington to a high command in General Wayne's army, which gave the final blow to the power of the Indians in the West, 1794. He left a son and daughter, both deceased, the former never married. subject I will add that George W. P. For the purpose of meeting the expenses of the Third Interna-

For the purpose of meeting the expenses of the Third International Convention of the Negro peoples of the world, the Universal Negro Improvement Association today opens its "Convention Collecting List," asking every Negro in the world to contribute a dollar or more to meet the expense of this gigantic movement.

The program of the Convention this year will be far in advance of that of the two preceding conventions. Important Commissions will be sent abroad from the Convention, and a great deal of constructive work will be done and representatives sent to different parts of the world to carry out the commands of the Convention. Therefore,

structive work will be done and representatives sent to different parts of the world to carry out the commands of the Convention. Therefore, it is incumbent upon every Negro to contribute his or her bit to meet the tremendous expenses that will be inflicted upon the Universal Negro Improvement Association.

The iconstration this year will surpass anything of its kind ever staged by any race. It is expected that several thousand delegates and members will attend the opening of the Convention on the first of August. Delegates will be coming from all parts of the world to take part in the deliberations of the Convention, and the British, French, United States, Italian, Belgium, Spanish and Portuguese. Governments have been requested to send representatives to the Convention for the purpose of stating their social policies in regard to their government of Negro and Negroid peoples under their dominion.

Please send in your dollars, two, five, ten, twenty, fifty or one hundred, to help in the work.

## "AFRICAN REDEMPTION FUND"

Started by the Universal Negro Improvement Association for the Liberation of Africa-All Negroes Asked to Subscribe Five Dollars or More

The Universal Negro Improvement Association, charged with the responsibility of freeing the four hundred million oppressed Negroes of the world and with the redemption of Africa, is now raising a universal fund to capitalize its work for the freedom of Africa.

The Second Annual International Convention of the Negro peoples of the world legislated that a capitalization fund for the propagation of the work be raised from among all Negroes under the caption of "The African Redemption Fund"; that each member of the Negro race be asked to donate five dollars (\$5.00) or more to the fund for the cause of world-wide race adjustment, and the freedom of Africa. Each and every Negro contributing to this fund will receive a certificate of race loyalty given by the Universal Negro Improvement Association with the autographed signatures of the Provisional President of Africa, the Secretary General and High Chancellor of the Universal Negro Improvement Association.

### DR. RAWLINS DONATES \$25 TO THE CONVENTION FUND

o William Ferris, Assistant President General of Universal Negro Im

Dear Sir-I am inclosing a check for 27.90 as my contribution to the concention fund. I shall give more to the organization from time to time. You know my feelings toward the organiza. tion, as we have had many talks together, and our friendly chain have brought me that much closer to the U. N. I. A.

The program of the association, I beleve, is the most constructive to the interests and progress of the Negro. both here in America and in Africa That being my belief, it is necessary

In the past the Negroes' belief in anything was never supplemented by their own financial support. That is the big difference between the U. N. I. A. and other racial movements

Marcus Garvey, with his determined personality and forceful arguments combined with his remarkable organiz-ing ability, has developed racial in-itiative and racial consciousners into a very large number of Negroes the world over. So, as the years go by, like the Jewish people, their beliefs, their wants and their longings will materialize, because with their money (and not by their prayers alone) they force the issue; and they demand, they get and they construct.

Count me as one of the supporters of A. My fervent wish is that Marcus Garvey and the organization leaders shall have continued comgood work. Success for the convention and every good wish for you.

Very truly yours, E. ELLIOTT RAWLINS.

Miss Wilson gave a song en-littled "Sound of Volces," which was well rendered and gave satisfaction. Marter Stanley Grant's efforts in reciting citing "Downward and Upward" brought cheers.
