# NEGRO RACE GOING FORWARD TO THE POINT OF DESTINY

FELLOW MEN OF THE NEGRO RACE, Greeting:

Gradually we are approaching the time when the Negro peoples of the world will have either to consciously through their own organization go forward to the point of destiny as laid out by themselves, or must sit quiescently and see themselves pushed back into the mire of economic serfdom, to be ultimately crushed by the grinding mill of exploitation and be exterminated ultimately by the strong hand of prejudice.

### Age of World Reorganization

There is no doubt about it that we are living in the age of world reorganization out of which will come a set program for the organized races of mankind that will admit of no sympathy in human affairs, in that we are all planning for the great, gigantic struggle of the survival of the fittest group. It becomes each and every one engaged in this great race for place and position to use whatsoever influence possible to divert the other fellow's attention from the real object. In our own sphere in America and the Western world we find that we are being camouflaged, not even so much by those with whom we are competing for our economic, political existence, but by men from within our own race, either as agents of the opposition or as unconscious fools who are endeavoring to flatter us into believing that our future should rest with chance and with Providence, believing that through these two agencies will come the so-

Advancement of Colored People are but preparing us for the time that is bound to befall us if we do not exert ourselves now toward our own creative purpose. The mission

the deeping consciousness of Negroes everywhere to the point where we will as one concerted body act for our own preservation. By laying the foundation for such we will be able to work toward the glorious realization of an emancipated race and a constructed nation. Nationhood is the strongest security of any people, and it is for that that the Universal Negro Improvement Association strives at this time. With the clamor of other peoples for a similar purpose, we raise a noise even to high heaven for the admission of the Negro into the plan of autonomy.

# White Supremacy

On every side we hear the cry of white supremacy—in America, Canada, Australia, Europe, and even South Africa. The whole world of white men are becoming nervous as touching their own future and that of other races. With the desire of self-preservation, which naturally is the first law of Nature, they raise the hue and cry that the white race must be first in government and in control. What must the Negro do in the face of such a universal attitude but to align all his forces in the direction of protecting himself from the threatened disaster of race domination and ultimate extermination.

# No Desire to Harm

Without a desire to harm anyone, the Universal Negro Improvement Association feels that the Negro should without compromise or any apology appeal to the same spirit of racial pride and love as the great white race is doing for its own preservation, so that while others are raising the cry of a white America, a white Canada, a white Australia, we also without reservaton raise the cry of a Black Africa.

# MUST TAKE PART IN WORLD REORGANIZATION

AFRICA'S FREEDOM GREATEST
NEED OF PRESENT TIME

All Negroes Must Come Together to Solve Great Problem

### APPEAL OF MARCUS GARVEY

The critic asks, "Is this possible?" and the four hundred million courageous Negroes of the world answer, "Yes!"

### Africa's Freedom

Out of this very reconstruction of world affairs will come the glorious opportunity for Africa's freedom. Out of the present chaos and European confusion will come an opportunity for the Negro never enjoyed in any other age, for the expansion of himself and the consoldiation of his manhood in the direction of building himself a national power in Africa.

# European Malice

The germ of European malice, revenge and antagonism is so-deeply rooted among certain of the contending powers that in a short while we feel sure they will present to us the opportunity for which we are organizing.

# Disablement of Germany

No one believes in the permanent disablement of Germany, but all thoughtful minds realize that France is but laying the foundation through revenge for a greater conflict than has as yet been seen. With such another upheaval, there is absolutely no reason why organized Negro opinion could not be felt and directed in the channel of their own independence.

# The Great Problem

Let us therefore not lose time depending upon others to solve the great problem that confronts us, but let us with this given object fight on steadily and unflinchingly for the placing of ourselves as a permanent national group among the great competitive human forces of the twentieth century.

# Looking to the Future

Looking forward, as we must, to the future, we can see through the spectacles of the Univerval Negro Improvement Association nothing else but a career of hard work for the accomplishment of our higher racial ideals. It will take the noblest, grandest and most courageous characters of our race to carve out our future and make secure our place in the affairs of men.

# Faint Hearts

Faint hearts are handicaps to us at this time, because the battle that is being waged among the different race groups and nationalities for their survival is one that calls for the stoutest and boldest hearts.

# Looking at the Opposition

Looking at the opposition, naturally the average

Negro would say that the work is too hard and difficult and cannot be done, but those who make up the University Negro Improvement Association have accepted the lenge of the ages, believing that what man has done can do, and with similar disadvantages facing other rate at other periods which they ultimately surmounted, we say that there is absolutely no reason why under the organization of the Universal Negro Improvement Association we cannot surmount the barriers that stare us in the face.

### Going Forward in Work

Day by day as we go forward in this great work for African redemption and racial emancipation we find new courage, new hope and new reason why we should press forward. Let us, therefore, wheresoever we happen to find ourselves, make new resolutions to hold up the standard of the Universal Negro Improvement Association for the cause of victory.

### Metal of Nations

Our five years of existence proves without the shadow of a doubt that in this organization is the metal of which nations are built. The materal with which we have had to work was probably not of the best, but have we not so molded public sentiment as to have brought into existence an organization of six million of souls who are hourly and daily working toward the achievement of one common purpose? What better service could we render to ourselves or a posterity than the wind with the achievement Association?

# Support Needed

Men, we need your support now more than ever, morally and financially, to carry on this great movement. Will you withhold it? Surely not! Now is the time when your dollars will count for something done and something achieved through this great organization.

Give it to us now so that we can continue this great work, and not only your dollars, but get behind the program in every way and help push it forward.

Whatsoever support you can give to this organization you will please address to the Secretary-General of the Universal Negro Improvement Association, 56 West 135th Street. New York City, U. S. A.

With very best wishes for your success, I have the

Your obedient servant,

MARCUS GARVEY,

President-General,

Universal Negro Improvement Association. New York, March 21, 1923.

P. S.- Once more I make my appeal to all Divisions, Branches, Chapters and members of the Universal Negro Improvement Association throughout America and the world to send in immediately their annual Assessment Tax for 1923 and all payments due the parent body.

The parent body has had a tremendous fight to maintain the honor and integrity of the Universal Negro Improvement Association. The battle has been almost won against the enemies who have tried to frustrate our plans. Whilst Divisions, Branches and members have looked on with their moral support, the parent body has had to carry the fight through its financial resources; therefore, it is necessary that each and every one who owes obligations to the parent body comply at this time with the constitutional laws and give that financial support which is necessary for the further promulgation of the work and the carrying out of the 1923 program.

All members should see that their Divisions make their regular report and keep up the support which is necessary for the parent body. M. G.

HE Boston Globe in an elaborate article recently made inquiry as to whether King Tutankhamen of Egypt, whose tomb was lately discovered, was a Caucasian or a Negro. The very fact talker would be to "start something right off the reel" which it might be hard to get back on.

Today to say that the male of either of the three groups is the better talker would be to "start something right off the reel" which it might be hard to get back on.

From U. S. Citizenshi HE Boston Globe in an elaborate article recently made inquiry that the query is raised indicates that there are strong grounds for believing that there was a decided strain of Negro blood coursing through his veins. We do not and will not know definitely until his tomb is opened next August. But from two photographs of him, with Negroid lips and nose, making his features look like those of a mulatto, we would infer that he was part Negro and part something else. WERE THE EGYPTIANS A NEGROID RACE?

This question has been thrashed out thoroughly in "The African which is not the same as the conversational or fighting sense. d' Abroad," where the author contended that the Egyptians were a mixed race like the American Negro, a blending of Caucasian Hamite, Semite of Commons and on the hustings; but of the five women who have this beautiful and pure religious docand Negro, and that they could be classified as a mulatto or quadroor race, with most of them half Negro and some one-quarter Negro.

Another strain of Negro blood came into the line of the Pharaohs with Mutemuna, wife of Tholmes III, whose son Amenhotep III had a Negroid physiology. . . . Besides these marked individual instances there is the fact that the Egyptian race itself in general had a considerable element of Negro blood, and one of the prime reasons why no civilization of the type of that of the Nile arose in other parts of the continent, if such a thing were at all possible, was that Egypt acted Ours will be the first Negro paper to publish a series of scholarly articles as a sort of channel by which the genius of Negroland was drafted off on law. into the service of Mediterranean and Asiatic culture. Does not Seti's prognathous face, his depressed nose and thick lips indicate a strain of Negro blood?

Rawlinson again says of Seti I, on page 299, Volume II, of his "History of Ancient Egypt": "He has a fairly good forehead, a rounded, depressed nose, full, projecting lips and a heavy chin." Does not "a rounded, depressed nose" and "full, projecting lips" indicate the possibility of Negro blood coursing through his veins? For further discussion of this point we refer the reader to pages 951 and 952, second volume, of "The African Abroad."

La propaganda entre los nativos del sur de Africa por agentes bolishevistas produces mal efecto y empieza a causar intranquilidad entre los blancos, quienes han tràbajado por el bienestar de los nativos y los nativos educados preveen el peligro de la situación actual.

Se recordará que el reporte de la Comisión Judicial.

Se recordará que el reporte de la Comisión Judicial rajo a luz una carta anómima en la cual se manifestabó que los nativos estan preparandose para llevar a la realización el mensaje de la Tercera Convención Internacional y que un individuo que toma parte en la vida pública de Johannesburg ha manifestado que los bolshevistas americanos le han hecho una oferta de cincuenta mil libras esterlinas para trabajos de propaganda entre los nativos.

La propaganda americana intenta primero destruir la influencia de los directores nativos y luego derrocar el gobierno. Existe actualmente una vasta organización en el su sur de Africa y grandes cantidades de dinero son el sus mativos ducados, quienes incitan al pueblo a perder el respeto a los europeos y seguir los consejos de coso propogandistas.

Estas manifestaciones del diario en cuestión prueban una vez mas que el programa de la Asociación Universal para el Adelanto de la Raza -Negra ha empezado a fructificar en Africa, por su creencia en la posibilidad de la satisticano el hogar de los pueblos. The Failure of Our Enemies Now, I do not wish to keep you We are making a big struggle to compete with our enemies. In New York, where I come from, they have exhausted every effort possible the influence of the U. N. I. A.; to put Marcus Garvey in jall, or to send him away, somewhere, and they have falled, in the State of New York. Then they tried public sentiment among Negroes, by misstatements, and by lying against the cause, by trying to defeat us in our efforts to carry on the Black Star Line; and also to humbug the business efferfailed and that it is no use to support the movement as it must fail. When they said Garvey has lost the money of the Black Star Line and the people and said that Marcus Garvey is a bad man, the U. N. I. A. is a had organiza-

A. than you had for the State Government to curtail before, realizing that we are not preaching any hatred, nor any differ-ences of race, but that I am preaching love to my own people and putting a great ideal before them.

The Root of Race Prejudice I want to say this; that the white man's prejudice against the Negro is color, but because of his condition.

The prejudice against us is not of race so much, or of color, but because of his condition. prises in order to say that we have race so much, or of color, but because failed and that it is no use to support of our condition. When the white man the movement as it must fall. When goes to compute his civilization and they started with the Black Star Line his progress he finds that the Negro goes to compute his civilization and cannot measure up to the standard he has established, and so by his inability should leave the association. When in all things to measure up to his they saw that the people did not leave, standard, he refuses to make him an they asked themselves, what kind of equal, politically economically, socially people are these? The State failed o or otherwise. And you cannot blame curb them; public sentiment falled to him. You cannot blame a mun who discourage them; and so they have now gone to the Federal Government book, who is well dressed and cultured. if when he learns that there is a tramp down the road without a dollar in his pocket, ragged and dirty, he refuse to associate with that tramp, because if he associates with him, it will be only a matter of time when that tram will take way the hundred dollars why the white man does not wish to associate with the Negro who has nothing to show against his civiliza-

Therefore, you should not happen. Therefore, you should not look to the past, but to the present, and in this you will see that because the black man cannot measure up to the white man's civilization he will not allow him to be on equal terms with him. If we can lift ourselves on an equality with the white man ther at that very hour, the color question will be a thing of the past,

I believe in a larger humanity. I believe in the final Fatherhood of God and the Brotherhood of Man. But, I am asking for your support, moral gentlemen, that is a lesson of years and financial. Those who believe that to come. I believe the time will come when we will have but one great human race, neither black, nor white nor yellow—no differences of color, but just one big, human brotherhood. But,

long time to come. The time will come when the yelow man will have lifted himself to the common standard; the time will ard; when between them and the black and the white man, there will be one uniform standard of progress and achievement among all these races Whenever that time comes, then can Dubois talk about social equality. When the negroes, can produce in a that he should not remain naked. So commonwealth of their own, Morgans, Carnegies, Rockefellers, Schwabs, Rosenwalds, etc.; when the Japanese, the Indians and the Blackmen can do the same, and established equality in economics, equality in industrial and material progress, then may they talk about inter-marriage between the great financial families in the world, because no one will have anything to lose. The white Morgan will have nothing to lose if he marries into the family of the black Morgan. The white Rockefeller will have nothing to lose, therefore there will not be this agitation for social equality. You will not get it, and you can not get it so long the negro has nothing. If Dubois be-lieves that the white man will allow negro who has nothing, to cour nust have education, culture, and money, and you must have power to and we cannot protect it. And with the white man, you have to show him

On Being Equal You know that when the white man says that the black man is a monkey o has reasons for coming to that conclusion. You know why? It is because the Negro today, at his best, is nothing but an imitator. Dubois tells about our progress, but let us be serious.

Let the white man call him out now, and ask him for his bluff. He says that he is equal to the white man then he is asked to prove it. The white man puts before me his civilization and all that he has, and says thousand years; what have you done? He will say that he has railroads run ning from Maine to California, from New York to New Orleans. He may say, "Here I have a call to be in Los
