NEGROES GETTING TOGETHER EVERY-WHERE FOR SELF-IMPROVEMENT

Fellow Men of the Negro Race, Greeting:

Lest we forget, it is well that the Universal Negro Improvement Association emphasize and ring the changes that have come over us. We are now face to face with a tremendous, yet pleasant, proposition that we, as men, have undertaken to put over. Universally, we have decided to bend all of our energies and efforts in the direction of nation building, and now an opportunity presents itself for us to co-operatively help in not only building, but permanently establishing the undisputed sovereignty

the nations of the world. She cans us from the farms, from the work shops, from the classrooms, and from our commercial and industrial activities in other parts of the world to her hillsides and broad acres of undeveloped lands and to there establish those marts of industry that will help to change her economic condition and make her one of the standard commercial nations of the world. Will we do it? And the millions who make up the Universal Negro Improvement Association answer, "Yes, we shall." We shall do it because it is our duty—a duty for which we have been preparing ourselves in the western world for three hundred years.

Experience Gained

The experience and education that we have gained, even through the rigors of slavery, shall now be placed at the disposal of the one country in the world that offers the Negro the hope of real freedom, the practice of real liberty. The fathers who established the little Republic of Liberia on the western coast of Africa truly expressed themselves when they declared that "the love of liberty brought us here."

Liberia has been free ever since her establishment; free to the movement of one's person. This beautiful history she has maintained up to the present, until she is able to extend her hands to the scattered sons and daughters of Africa and bid them welcome; welcome to her hospitable shores; welcome to her hearths and fire-

sides; welcome back to the land of our fathers, and so we go with a determination to do our

Answering the Call

What Negro will not answer this call? The Universal Negro Improvement Association feels that as soon as our scattered race in America, West Indies, South and Central America become convinced of the fact that there is much to do in Liberia through and by our own initiative, and that there is every welcome to do it, then we shall indeed see a new day in the rise of scattered Ethiopia.

Venture a Success

We are now preparing on every hand to make the venture of Liberian colonization a success. We want ships, we want materials to make the venture a possibility. Every member of the Universal Negro Improvement Association and of the Negro race who is serious in the promotion of the aims and objects of the Association should now make every effort to do his and her best in financing the program for ships, more ships, and for the purchase of materials to enable our workmen when they get to Liberia to start that constructive work that must be done for the accommodation of all.

Navigation and Trading Company

The Black Cross Navigation and Trading Company, Inc., again appeals, through the Universal Negro Improvement Association, for support to secure its ships. The corporation wants every Negro who is touched with a sense of duty to loan it the necessary amount of money needed for capitalization. Those who can loan \$1,000 for five years should now do it, and those who cannot loan more than \$500, \$400, \$300, \$200 or \$100 for the same period of time should not delay in so doing, because the capital is now needed to push along the project of ships and more ships. The corporation is borrowing these loans from each and every one who can afford to subscribe for the periods of five

or ten years, bearing an annual interest of 5%. This money is to be used for the conduct of the corporation's business in trade between Liberia, America, West Indies, South and Central America. It is expected that everybody will help in this direction, and, as we unitedly do our part through the promotion of the plans of the Black Cross Navigation and Trading Company, we shall at the same time prepare ourselves for the forthcoming International Convention of the Negro Peoples of the World, at which we are to discuss the most important program ever submitted to the race.

Getting Together

We are going to get together in 1924 more than ever.

We are going to register a change that the world shall never forget in the rise of our once great and scattered.

ancient glory. Let every member of the Universal Negro Improvement Association redouble his and her energy in fostering the work of the organization. Let everybody get behind the Convention Fund and push it along, as well as help the Black Cross Navigation and Trading Company. We are going to do this. We must do this if we are going to carry the program as it is and bring success to ourselves. We are all looking homeward, and sooner or later we will get there, and then in the days to come we shall sing our songs of gladness and chant our hymns of praise under that vine and fig tree of our own, and send up our thanks to the great King who inspired the prophecy that "Princes shall come out of Egypt and Ethiopia shall stretch forth her hands." We are stretching forth our hands now industrially, educationally, socially, commercially, politically and religiously.

Trusting we will all keep the faith until the day of success comes, with very best wishes, I have the honor to be

PUBLIC OPINION RAMPANT IN PIEDMONT. CALIFORNIA

Mob and City Council Unite to Deprive Sydney Dearing, a Prosperous Negro, of His Home in Fashionable Residential Section-Major Loving's Property Also Menaced

Mr. Arthur S. Gray, of Oakland, Cal., has sent us a large batch of newspaper clippings, bearing on the efforts to drive Sydney Dearing, a prosperous Negro, out of his home in the fashionable section of Piedmont. Mob threats and mob violence, with two bomb attempts, failed to move Mr. Dearing. The city council then stepped in and condemned his property for public uses. Thus, in one of the most enlightened comnunities on the Pacific Coast, the city authorities join hands with mobocratic public opinion to create a lawless condition of terror and to rob a Negro of his property by condemnation proceedings.

The Negro World is also advised that Negro domestics in Piedmont are being discharged on account of the property wrangle and it is umored that white women are signing resolutions to refuse employment o all negro women "because of the defiant racial attitude." The Oakland edition of the San Francisco Examiner of June 6 has

the following to say about the matter: eratic East Bay City of Sydney Dear-+in, its only negro resident, were taken by the Piedmont city council last night.

BEST MINDS OF THE RACE TO BE PRESENT The above program will be exhaustively discussed at our forthcoming conven

ion, and it is natural to expect that the best minds of our race will be sent as representatives to take part in these discussions. All branches and chapters of the ovement Association and all other organizations, societie and churches are invited to attend the convention and to take part in its genera iscussions. Delegates, as usual, will be coming from Africa, Europe, Asia, the West Indies, South and Central America, Canada and the forty-eight States of the American Union. This will be a big time for the Negro race. During the night sessions of the convention (the convention will be night and day for the thirty-one days of the month of August) severad of the prominent white leaders of America will speak to the delegates. We are expecting the presence of several Senators, Congressmen and leaders in American public life and education.

NEGRO POLITICAL UNION

Among the important items to be discussed, as outlined by the above program, will be the formation of the Negro Political Union. This union will consolidate the political forces of the Negro through which the race will express its political opinion in America, in the islands of the seas and in all communities where the Negro forms a part. The Political Union shall represent the political hopes and spirations of the fifteen million Negroes of the United States of America o American questions, domestic to America, and shall represent the interests of the millions of Negroes of the West Indies in their different and respective islands affecting domestic political questions, and so also in the scattered com Africa. The union shall have a sympathetic relationship politically, with Negroes all over the world, but each country or community will have its own domestic pro strength of the union shall be given to any community or country to politically assist it in putting over its political program. As, for instance, if the Negroes of Amercally agitating or working for the passage of any special measure fo the benefit of the race, the entire strength of the union would be placed at the disposal of the American section. If the Negroes of Trinidad desired to carry out any political measure for the benefit of that community, the union would use its strengt in assisting them, and so with any community where the Negroes live through out the world. No longer, therefore, will individual politicians represent the ests of the Negroes, but the Negroes unitedly will be represented by the Negro Political Union. Let us all, therefore, work for the successful consummation of the problems of humanity, especially as such problems affect the Negro.
An appeal to the Kings of England, Italy, Spain and Belgium and their parliaments for a square deal for Negroes in Africa and the colonies.

The next great duty of man is to find the purpose for which he was created. A woman may be born into this world for the purpose of mothering and training the President of a nation; another may be born to be the wife of a great statesman, whose single word could decide the destinies of millions of people; yet, these women may be born in very humble stations in life, but, having seized every opportunity that presented itself and done the most trivial and menial jobs conscientiously and well, they fitted themselves for the big purpose of their lives.

Shirking duties and ignoring opportunities shunt us right off the track of the big purpose, and when we come to the end of our life's journey and ask ourselves the question, "Have I fulfilled my purpose in life?" That wee, small voice within us will whisper, "No pal, you left the track years ago." It is the little particles that form the whole; likewise it is the little things in life, well done, that lead to the goal lead to the goal.

Et puisque nous sommes préparés, préparés par trois siècles de rude préparation, pourquoi ne pas la aligner nos forces dans la direction précitée? De nos universités, nos collèges, nos lycées et de nos écoles, enfin, de chaque sphère de l'activité humaine nous devons réquisitionner nos hommes et nos femmes pour servir notre Race dans les diffèrentes branches, les branches les plus importantes, les plus perfectionnées de l'effort humain. Certes, un grand nombre des hommes intellectuels de notre Race dédaignent l'idée d'un Libéria développé, d'un Libéria comme la Nation Nègre par excellence. Pourquoi ne pas vouloir une destinée aussi glorieuse pour notre Race? Pourquoi ne pas vouloir la réhabilitation de la Race quand toutes les indications, comme des signes précurseurs, nous disent que déjà l'immortel matin commence à luire pour notre Race Noire? Tôt ou tard ces hommes retardataires se réveilleront à la réalisation que le programme de la Universal Negro Improvement Association a pour devoir d'aider dans la construction et dans le relèvement des Nations Noires et Indépendantes; ce programme, disons-le, est le seul apte à résoudre le pro-

blème compliqué de la Race Noire. Nous voulons avoir le pays de Libéria en bonne voie de progrès intellectual, commercial, industriel and agricole; un Libéria où la Race Noire trouvera sa réhabilitation. Les 400,000,000 de la Race doivent se coaliser pour faire de Libéria une nation Noire exemplaire aux yeux des autres nations. C'est en vertu de cette confiance que nous avons en nousmeme, c. a. d. dans la Race qu'aujourd'hui encore la Universal en appel à l'imagination à l'ambition et à l'activité de ces millions qui font profession de la foi préconisée par ses "leaders."
