

# THAT INDUSTRIAL AND COMMERCI **PROGRAMME OF RACE BE EXECUTED**

## Fellow Men of the Negro Race, Greeting:

This week I desire to appeal to you to concentrate more earnestly upon your objective along industrial and commercial lines. Everincreasing financial support is needed if our plans, industrially and commercially, are to go forward.

You must bear in mind that the Universal Negro Improvement Association is no longer l an organization; it is an institution, and as such it takes more to keep together than an organization. The Universal Negro Improvement Association has reached the point where you program, and it is a crime for everybody to sit down and expect one man to put over a program that concerns all Negroes. As I can find time to work for other Negroes so can others do the same. The tendency on the part of everybody is to dump the responsibility on

somebody else.

## Deeds, Not Words, Now Needed

When we started we had to give to certain people certain responsibilities; they made a big noise for a time and did nothing, but soon they began to shirk their responsibilities. The organization has gotten too big now for talk only. The time for saying that the Red, Black and the Green must be placed on the hilltops is gone; we have to come with the goods now; we don't want to hear any more only of the Red, Black and the Green; we can see the Red, Black and the Green. We don't want to hear only about the hilltops of Africa; we know the hilltops of Africa are there. We want good judgment, sober intelligence and executive ability to put over the program.

## HON. MARCUS GARVEY SAYS THIS IS THE TIME FOR DEEDS, NOT WORDS

If the Negro Race Was Prepared and Ready Ten Years Ago, It Could Have Seized the Splendid Opportunity Which **Presented Itself** 

WITH THE RACE NOW AWAKENED AND ON THE RIGHT PATH, IT IS ONLY NECESSARY

prises, I want everybody to follow me carefully, because this is pertaining to your future individuality as well as collectively to the future of all members of the race. The Universal Negro Improvement Association for the next couple of years must have at its command millions and millions of dollars if you are going to get anywhere. The world is in such a state now and things are operating so now that at any time between now and another few years the real opportunity for which we have been looking will present itself, and if the Universal Negro Improvement Association is not in position to take advantage of this opportunity you may as well start to organize over again as we did in 1914.

between 1914 and 1918. The same opportunity is going to present itself again.

#### We Must Be Prepared

The Universal Negro Improvement Association must be ready and must be prepared. We must prepare now by having many millions of dollars at our command. We cannot beg for these millions of dollars, because it will take until judgment day to get it. We have got to get these millions of dollars in the way that others have, and that is why I want to talk to you about making yourselves commercially and industrially strong. When you come down to the final analysis of business, trade-and industry they form the backbone of nations, of governments and of the whole world.

#### The Lesson from America's Greatness

It is the billions and billions of the few American capitalists that together make up the resources of the country called America and help to make America the great financial power that she is, so that France has to come to her and borrow money, Germany has to come to her and borrow money, England has to come to her and borrow money. And because she has this tremendous power she is rated as the first nation in the world, not because her people are pretty and good-looking, but because the people have common sense to make money out of trade. And with her resources she is able to give people the

#### Duty of the Membership

You the members have as much duty devolving upon you for the good of this institution as we the leaders have. We have to reciprocate in this, and it is my duty as one of the leaders of the organization to advise. I cannot do much more than advise and by example and precept lead you.

Now, if you have any confidence at all in the organization, if you have any confidence at all in the leadership of the Universal Negro Improvement Association, your duty is to follow as you are directed. The world is getting squarely down to business and we have to adopt methods of soberness in executing our business.

**Industrial Efforts** 

Touching our industrial efforts and enter-

183

### If There Was Leadership Before the War

We are here in America today, we are here in the West Indies today in this condition because of the lack of foresight on the part of those who led this race prior to 1914. If the Negro had been rightly led in the past, racial independence would have been established between 1914 and 1918, and we would have been one of the most powerful entities in the world. Today the Negro would have had a great government for himself even as the Jews, the Egyptians and the Poles and the other people who gained their freedom between 1914 and 1918. Because we were not ready for the opportunity that presented itself — that glorious opportunity-we are in the same helpless position. All Africa was going a-begging between 1914 and 1918 until the armistice was signedbegging for some organized group of Negroes to come and take it, and because we were not organized Africa remained until the war was over, and France and England and Italy took possession of that which they could not hold

1.1

wherewithal to make war and stop war. America can get anything she wants today because of her financial power.

We are going to raise millions of dollars in resources so that when the day strikes for Africa's opportunity we will be prepared to take advantage of it. We cannot beg you for that money. For us to put over this program as we have mapped it out is going to take millions and millions of dollars. If the opportunity came now you would not be able to take it. How would you be able to take Africa when you cannot even pay your light bills?

#### **Build Up Trade**

If we are to become great we must be able to control our own trade, we must be able to transport the raw products of Africa to all parts of the world. We have got to go about this thing in the same way that others have gone about it. We have got to pile up resources to put over this program, and the Universal Negro Improvement Association is starting off by giving the race an opportunity to develop itself commercially and industrially.

The time has come for us to get to business. You are called upon to use the same intelligence as the Englishman, the Frenchman and the American have used in building up strong commercial and industrial nations for themselves. And let nothing divert you from your settled resolve to make the next five years noteworthy by remarkable industrial achievement.

I have the honor to be,

Your obedient servant, MARCUS GARVEY. Founder and President-General, Universal Negro Improvement Association, LIBERIA LIKE HAITI TO LOSE ITS INDEPENDENCE

### PRESIDENT KING AIDS AND ABETS WHITE EXPLOITATION OF AFRICA

WASHINGTON, June 26 .- American interests, headed by Harvey Firestone, have practically concluded negotiations, for a large concession in Liberia, to be utilized in the growing of plantation rubber on a huge scale.

This is the first step in the plan of American manufacturers to break the power of the British combine, since the formation of which, more than two years ago, the price of crude rubber has risen from 17 cents a pound to 85 cents.

Coincidentally with the conclusion of the tentative agreement regarding the concession, arrangements are being made for the flotation in the United States of a substantial loan to the Government of Liberia.

From the Chicago Tribune

E are not alarmists, but as representatives of the largest Negro organizations in the world, it is our duty from time to time to bring to the attention of oppressed black humanity the dangers that face them as a race, and the machinations

of those who subjugate and brutalize them. The world is in the throes of war. Discontented groups in a parts who have been groaning under the heels of white oppression have learned the words Liberty and Democracy, and are rising up tators are urging the natives to drive in a little drama, and every child like have learned the words Liberty and Democracy, and are using up in an effort to throw off the shackles of oppression and come into their own.

Abd-el-Krim has already given the world to understand that he will protect Morocco against the Spanish and French invadors, to the last Riffian.

China's ultimatum is concise and pregnant with meaning: "The time has passed when China can be treated as an outlying colony of any one nation or any group of nations. She has her sovereign rights which she expects other friendly nations to respect. It is to the interest and peace of the world, especially the peace of the Far East, that she be recognized as a full-fledged member in the family of na-

of God. If you want to call anybody the servant of a human being you are required to use a different word for servant; but a man is always the abd of God. Hence the well-known name Abdallah or Abdulla, "Servant of God," equivalent to the German name Gottschalk.

For variety's sake, this name Abdallah is modified by substituting for the name of God one of God's standard titles, of which there are many among Moslems; thus, one man will be named Abd-el-Rahman "Servant of the Mer ciful"; another Abd-cl-Aziz, "Servan of the Mighty," or Abd-elKader, "Servant of the Almighty," or Abd-el-Krim, Servant of the Bountiful," or Abd-ellamid, "Servant of the Praised," or ther such names.

It makes no difference in the cor-rectness of the English spelling what vowel you use next after the "Abd." If you use "a" or "e", you are giving the name its vocative form, which is identical with the accusative; if you use "o" or "u," you are making it nominative; with "I" it is genitive. Neither : e you bound to any fixed standard of hyphenation. It is equally correct to write Abdelkrim or Abd el-Krim. It makes no difference in the corel-Krim, er Abdelkrim or Abd el-Krim. It is not good form to associate the i" more closely with "Abd" than with

INTERNATIONAL RALLY FOR THE FINANCIAL AID OF THE PARENT BODY,

# **Universal Negro** Improvement Association

# \$50,000 TO BE RAISED BY THE 31st OF AUGUST

Every loyal Negro should donate to the Fund to help the Greatest Negro Organization in the World.

Send us a Five-Dollar Contribution for this Fund.

All donations will be acknowledged in this paper, and donations of Five Dollars and more by letter.

The Parent Body, Universal Negro Improvement Association, now makes an appeal to its members, divisions, branches, chapters and friends to rally to its support in helping to raise Fifty Thousand Dollars by the 31st of August for liquidating urgent demands on the Association for the promotion of its work.

The expense of running the Organization for the good of the race is tremendous. Expansion work must be done and current demands must be taken care of. The fight for Africa's Redemption is a costly one, and must be borne by members of our race. We need money now more than ever to carry on the great organization Marcus Garvey founded for the redemption and salvation of the race. Everybody should help. If you can contribute \$5.00 let us have it immediately. Those who can give us \$10, \$25 or \$50 will be gratefully thanked for their patriotism and loyalty.

Persons sending us \$25.00 or more should send us their photographs for insertion in this paper. All donations should be sent to Chancellor, Universal Negro Improvement Association, 56 West 135th Street, New York City.

Loyal members of the Universal Negro Improvement Association should give entert imments among their friends at home to raise money for this fund. Those who desire to do so should write to Acting President-General, Universal Negro Improvement Association, for sealed authority and collecting list to avoid misunderstar dime,

This is a way every member can help. Act now! Remember to send all donations to Chancellor, Universal Negro Improvement Association, 56 West 135th Street, New York City.

> WILLIAM L. SHERRILL, Acting President-General.

#### The Negro World Keeps Them Informed

To the Editor of The Negro World: I am a farmer and the father of comes, the more will they turn their twelve children. We do not have much eyes toward Africa and the accomto give away, but we do what we can plishment of the great program of the for the U. N. I. A. I have never seen U. N. I. A. Mr. Garvey, but I love and respect him for the work he is doing. We cannot Then right this cause must win; talk much down here about the things talk much down here about the things To doubt would be disloyalty, that we have in heart concerning the To falter would be sin." work, but we read everything that we

can get and it helps us. It is impossible to say how much we learn from The Negro World. There are so many things that we would never know or understand if we did not see it there. Negroes who have been oppressed so long are glad to look forward to a time when things will be different. The Negro World keeps us encouraged as we i as we work, M. HARROLD.

#### Blackton, Ark.

Marcus Garvey Exemplifies The Potency of Will Power To the Editor of The Negro World: Negroes everywhere ought to be proud of Marcus Garvey, who has risen from the ranks and is struggling to free the race from political, industrial and intellectual serfdom. I like to contemplate and compare the struggles of Marcus Garvey and followers with those of leaders and downtrodden people of other times. All history forces me to believe tha the U. N. I. A succeed because the cause is righteous, just and practical.

God created the Negro the equal of any race in the world. There is no reason why the Negro should feel inferior and be glad to accept favors from other races. The Negro is progressing daily. Part of the emancipa-tion program has already been accom-plished. Many things which have kin dormant in the Negro are now alive and active because of the inspiration received from the Honorable Marcus Garvey.

Success depends to a great extent upon will power. And who among us has a stronger will or a greater determination than Marcus Garvey? He not only has it himself, but he has put great deal of it into his followers Putting Mr. Garvey in jail has not discouraged either him or his followers We have many examples where putting the leader of a movement in jail The Only Thing has helped the cause. All signs are pointing that way in this instance. Negroes have been so scattered among other races and people that, it seems to be almost an impossible task to bring them together and make them think as one group. Marcus Garvey has come nearer to doing that than any other Negro in history. The U. N. I. A. has done a splendid work in helping the Negroes of the world to see
