Hon. Marcus Garvey In Plea for Racial Solidarity Bids Negroes Remember They Are the Balance of Power

We print below the fifth and last instalment of a remarkable address delivered by the Hon. Marcus Garvey, founder and President-General of the Universal Negro Improvement Association, at Washington, D. C., on November 20, 1921:

"As for me and mine we shall work, work, work in this generation that our children, succeeding generations of Negroes, shall see on the broad squares of Africa, on the avenues of Africa, monuments -monuments of loyalty, monuments of chivalry, monuments of patriotism, testifying to the valor and the deeds achieved by Negroes of the twentieth century, to hand down to posterity an empire upon which the sun will never set. (Applause.) As I pay my periodical visit to Washington, the capital city of America, I go to Mount Vernon to pay homage to the greatest American hero, George Washington; so do I hope your children and mine in days to come in Africa will, whenever they visit the national capital of Africa,, go two or three miles out and pay homage to some Negro Napoleon who will have freed and redeemed Africa. And where is that Napoleon? I see him in Washington tonight even as I see him everywhere among Negroes wherever I have been. Who can tell that you will not be the Napoleon to take down from the walls the banner of the Red, the Black and the Green and say to four hundred million Negroes, 'Follow me'? (Applause.)

"Men, let me emphasize again what other men have done you must do or you must die. Can you do it? The answer is echoed from all over the world, from four hundred million Negroes, 'We can do it; we shall.' (Applause.) We did it in France, we did it in Flanders, we did it in Mesopotamia, and we shall do it again on the battle plains of Africa. (Applause.) There can be no peace without an inclusion in that peace of the liberty and freedom of four hundred million Negroes the world over. I do not care who talks about peace. I do not care how many shout peace. There can be no peace until four hundred million Negroes are free. (Applause.) We mean it, we mean it with our manhood, with the last drop of our blood. (Applause.) We are sick and tired of this old-time thing now. This lynching and burning and all kinds of things the world over—we are sick and tired of it, and we cry out to Heaven that we are tired. We are tired, we are tired, and therefore we seek liberty and must have liberty. (Applause.)

Fighting for the Fiend!

"I have but one life to give. A man dies but once. I have never seen the fellow who dies twice except the coward. The coward dies a thousand times before his death; a brave man dies once. I have but one life to give. The other day I could have given it in Flanders and France for a class of people who should have been punished for their iniquities. I would have died in France and Flanders for the Belgian—that Belgian-Hun who massacred my brother, my sister, my mother, my father, in the Congo not very long ago—cut off their hands, cut off their feet, cut off their ears, maimed them because they did not produce enough rubber to satisfy the Belgian Trust. They did that to my people in Africa not many years ago, and just seven years ago I was called out to fight for them. But, thank God, I did not get there. I did not get there. I believe God is with this race as He is with all races. Just at the time when I was to be called up, the Kaiser said, 'Stay there, I am going to throw up my hands,' and that saved me from an untimely death. And since I was so near to death for something bad, I mean to die for something good. We came near death, didn't we? All of you Negro folk, you colored folk. We came near death the other day, dying for nothing. Now, since you were saved, and you must die again, take my advice and die next for something good.

The Balance of Power

"The Negro has started out to think for himself, and some of us believe we should not talk so openly. What are you hiding? What are you hiding? Continue to hide, and everybody will believe you are not here. Talk out. Now is the time to talk out. And you know why I am talking so loudly and so long and so emphatically? Because the Negro is the balance of power in the world today.

Nothing can be said, nothing can be determined without the Negro. Thank God for that. You let them go to war tomorrow morning, and you will find they can't stop until they ask the Negro. They can't do anything in the world without the Negro. He is the balance of power. Europe is watching Asia, and Asia is watching Europe, and Africa is looking on. And Europe and Asia can settle nothing without the assistance of Africa. And let me tell you this. Africa is going to bargain for something, when Africa is to go on one side or the other. Africa shall not be parceled out. For Africa is my heritage; Africa is your heritage. . . .'

As time goes on, truth will get a hearing; virtue will reap its own reward. Marcus Garvey, years ahead of contemporary Negro leaders, stirred the Negro race to its depths, gave it a national programme, an ideal and an incentive to life and living. And now the things he saw clearly eight years ago are at long last being perceived by his erstwhile critics and tormentors, the last being perceived by his erstwhile critics and tormentors, the last being perceived by his erstwhile critics and tormentors, the last being perceived by his erstwhile critics and tormentors, the last being perceived by his erstwhile critics and tormentors, the last being perceived by his erstwhile critics and tormentors, the last had an incentive to life and living the defeat that final finglit ave and was fixed that final fina of Abd-el-Krim. REQUIRED BY THE ACT OF CON-

ADVANCE! ADVANCE! TO VICTORY!

To Negro Lovers of Liberty and Freedom

Greeting:

It is for me officially to notify you of the serious condition affecting our very valuable Liberty Hall property at New York. Inspired by selfish motives, a few Negroes aided by certain real estate interests in the City of New York are making desperate efforts to acquire this property and so deprive the Association of its use.

LIBERTY HALL was purchased by the Hon. Marcus Garvey in 1919 for the Universal Negro Improvement Association and improved at a total cost of \$110,000. Up to February, 1925, when the Hon. Marcus Garvey was taken to prison, the Universal Negro Improvement Association had paid in a total of \$71,700.00, leaving a balance of \$38,300.00 divided up into a purchase-money mortgage of \$22,000.00 held by the Metropolitan Baptist Church and a balance of two first mortgages of \$2,000.00 and \$14,300.00 respectively, held by the Emigrants Industrial Savings Bank.

In November, 1926, a mortgage of \$32,000.00 was placed on LIBERTY HALL by George A. Weston, ostensibly for the purpose of retiring certain judgments and mortgages accrued on the said property. This matter is now in the hands of the Supreme Court of the State of New York under an order to compel a proper accounting of the disbursement of the said \$32,000.00. In January, 1926, the property was encumbered by a fourth mortgage of \$6,300.00 placed there by George A. Weston.

In March, 1926, when the present administration took over the affairs of the Association following the Detroit Extraordinary Convention, we found all of these encumbrances upon the LIBERTY HALL PROPERTY. Since coming into office it has reduced these encumbrances by \$19,000.00 paid out from time to time. The administration has been confronted with great difficulties in its attempt to save LIBERTY HALL, due to the operation of certain sinister agents and their backers in an effort to acquire the LIBERTY HALL PROPERTY and deprive the members of the Universal Negro Improvement Association of its use, thereby stultifying their endeavor to prosecute the program of "Africa for the Africans."

To this end, one Casper Holstein, a Negro, upon his own application either in person or by attorney, purchased from the Emigrants Industrial Savings Bank two past-due first mortgages totaling \$12,000.00 which the bank was quite willing to carry as long as the Universal Negro Improvement Association paid the interest on these mortgages. Just two days before an installment payment of \$3,435.00 was due on our third mortgage, this Casper Holstein through his attorney notified us of the assignment of these two mortgages to him by the Emigrants Industrial Savings Bank and demanded payment from

us within twenty-four hours. The Association was not in position to comply with this demand and Casper Holstein began foreclosure proceedings to sell the LIBERTY HALL PROPERTY.

There is not the slightest doubt that a concentrated effort is now being made to acquire this very valuable site. The holders of the third mortgage of \$32,000.00, which is now reduced to \$26,000.00, have also demanded payment in full by April 1st.

Members of the Universal Negro Improvement Association, the matter of continuing our ownership of LIBERTY HALL now rests entirely with us. Shall we continue to own it, or shall we succumb to the pressure of notorious Negroes aided by certain realty self-seeking interests? Now is the time for each and every member and well-wisher of this greatest of Negro

movements to come to the rescue of LIBERTY, HALL—the sacred shrine of Negro Liberty.

Whatever be the dollars-and-cents cost of the LIBERTY HALL PROPERTY, it is a secondary matter to the millions of suffering Negroes throughout the world. The inspiration that they have received from time to time from the historic gatherings at LIBERTY HALL is far beyond pecuniary value. It is from LIBERTY HALL that millions have been inspired to race consciousness, and to allow this our LIBERTY HALL to succumb now for the lack of a little sacrifice upon the part of the members of our race would be an act no less amazing than tragic.

LIBERTY HALL PROPERTY is a sacred heritage that must be kept to inspire the millions vet unborn. To the one hundred per cent. Negro LIBERTY HALL is to him what Runnymede is to Englishmen, Independence Hall to the American and the Bastile to Frenchmen; for within the walls of this sacred shrine of Negro Liberty the Negro Bill of Rights, paralleling the English Magna Charta and the American Declaration of Independence, was signed by an International group of Negroes in the year 1920.

LIBERTY HALL must be saved at all costs, for we cannot permit the self-seeking destrovers of Negro Liberty to put over such a sinister move at the expense of the race. Call out to the encroachers:

"Woodman! Woodman! Spare that tree. Touch not a single bough; In youth its branches sheltered me And I'll protect it now"

The Universal Negro Improvement Association calls upon each and every member scattered throughout the entire world to donate \$5.00 or more within the next 90 days and help to save LIBERTY HALL, New York City.

Forward your donation to the "Secretary. Liberty Crusaders Campaign, 142 West 130th Street, New York City." Also fill in the donation blank and become a member of the Crusaders.

HAVE YOUR CHILDREN TRAINED ALONG

OUR WOMEN and WHAT THEY THINK-Edited by Mrs. Amy Jacques Garvey

TEGRO women are the acknowledged burden beavers of their Y race. Whether this is due to the innate laziness of Negro Women the Pivot of National men, or to their lack of appreciation for their noble women. we are not quite sure. Perhaps both these reasons are contributing factors, yet the results are the same-an overburdened womanhood, and a backward race. We hope some of our male readers will evolution, ignores feminine co-operain defense of their sex supply us with a plausible excuse; that is, long survive. if they can summon enough energy to do so.

With Negro woman in this important, yet unenviable position, she should be careful in keeping pace with daily events and training her mind to cope with situations and problems. Her tasks become greater as the cycle of civilization shifts nearer to Africa, and name of the constant of th

tionalism and self-determination the rallying cry of the East.

One of the great dangers that face us is that the majority of us cannot realize that ours is a young, virile race, while the white race is slowly decaying; therefore it is disastrous for us to imitate the old fellow who indulges in excesses, knowing that he will soon depart. This birth control suits them, not us; it is our duty to bear children,

fellow who indulges in excesses, knowing that he will soon depart, This birth control suits them, not us; it is our duty to bear children, and care for those children, so that our race may have good men and women through whom it can achieve behor and power. Their ingests and guilty consciences. Your recreation must be wholesome and clean, you are in the position of the young child who should be ferrent—the has already made his mark. Let him indulge.

Our men are our greatest concern. They lack faith in their residue of the control of the same in the concerns the control of the same in the concerns the control of the same in the contro public, so that their women may live in comfort and luxury. They brought our fore-parents from Africa to work for them as slaves, so that their blue-cycl dames may disport themselves and not be builting from the care of home and children. When, through force of circumstances, they had to emancipate us, they devised all sorts of machines and utilized electricity for domestic usage. They have invented automobiles, railroad trains and aeroplanes so that their for the upkeep of which they exploit the darker peoples and their lands, so as to get coal, rubber, dear ones may travel in comfort; for the upkeep of which they exploit the darker peoples and their lands, so as to get coal, rubber, oil and iron. They ill-treat Chinese so as to get silks in order to clothe the white bodies of their women. They oppress Indians in India and Malays in Ceylon, so that "me lady" can serve five o'clock tea in her silken boudoir. They lynch and burn black men for daring to look at white women; in short, they will go through hell it self so as to provide luxury for their women.

Mr. Negro, who has no love for his woman, loses the incentive to achieve, and the race is that much poorer because of his slothfulness. Tell him to go out and get diamonds and adorn his woman; he will readily tell you that he isn't going to risk his life for her; yet his dependency on white people makes every minute of his life a risk. He is always out of a job because he is too lazy to go out and mand the girl were saying good use. Our furniture is of the simplest. We are not out to impress with our rooms or our equipment. Small matter, as long as he can get a free meal sometimes and not be bothered with the landford every mouth. Such are the parasites that must Kegro women have for husbands, and we appeal to them at this time to be brave and take hope for the fatture. Their suffering will not be in vain, although their duties are becoming greater. Nationhood calls for brains and ability, the children must be prepared to shoulder the burdens of the next generation with honor and ability; they must not be allowed to fall into the weaknesses of their fathers, but must be inspired to go out and face the world, and make their separate racial contribution to humanity.
