World-Wide Conspiracy to Exploit the Negro Must Be Crushed by Self-Reliance and Unity

Fellowmen of the Negro Race, Greeting:

The pleasure is mine once more to write to you with the hope of inspiring, you toward the great objective of African redemption and universal Negro emancipation.

World-Wide Propaganda

At this time when world-wide propaganda is let loose for the purpose of undermining the unification of black sentiment for racial self-preservation and nationalism it becomes imperative for those who are not afraid and who essay to lead to make statements of fact with the hope of counteracting this propaganda so that the race may not be destroyed as is the intent and motive of those who are responsible for the propaganda that they are spreading to crush the black man. It is foolish for the black man to think that anyone loves him but himself. It is sensible and imperative for him to think and believe that the world around him desires to use him for no other purpose than to exploit him without mercy and consideration. This is the truth and a fact that has been arrived at not by any irresponsible conclusion or assumption, but through the most painstaking investigations possible under the circumstances.

A Plain Statement

The world of white men, with few exceptions, is out to exploit and rob the Negro. This is a foregone conclusion and is as plain a statement as I can make it, and any Negro who is foolish enough to allow himself to think that it is not so is only acting to expose himself to a great calamity that is bound to overtake him on the way. To every rule there is an exception, and so we can assume that there are individual white men who feel kindly toward the Negro in so far as the Negro's interest does not directly clash with theirs. But in the great plan of racial self-interest the great bulk of the white race always thinks white, and, therefore, it is imperative for the great bulk of the black race to think black.

Enemy of the Black Race

To me the greatest enemy of the black race today would be the black man who fails to see and understand and realize these statements of fact. I do not make them because I have to, for pleasing my friends, because in making them really I make more enemies among the powerful nations and people than otherwise. But I feel it my duty to make them because I am supremely interested in the progress and development of the black race, and any statement that will help the race to discover itself, I shall make them irrespective of the consequences.

Believe in Yourself

Black man, I am telling you as a fact, there is but one thing for you to do and that is to believe in yourself. For you to place your trust or confidence in the white man is as safe as placing your trust and confidence in the devil with the hope of escaping the consequences of hell. I do not make this statement because I have any hate for the white, man, but I make it with the thought that I know he loves himself to the exclusion of all other races, and particularly the Negro at this time whose ignorance affords

SAYS HE HAS AROUSED THE ATTENTION OF LARGE NUMBERS OF EUROPEANS WILLING TO HELP

him the opportunity to exploit, without mercy, to his own benefit.

Investigations in Europe

My investigations in Europe have revealed a conspiracy on the part of the European business men to rob and exploit the natives of Africa to the point where they cannot recover themselves. There is a case before me now where a native African of wealth was inveigled to ship his produce to the amount of nearly £20,000 (\$96,000) to a white business firm in Liverpool. The firm's object was to defraud this native of his produce. After the produce was received they sold it and made the most plausible excuses to the native, showing that the native was more in the indebtedness of the firm than the firm to the native although a thorough investigation of the account shows where the firm had not carried out its obligations to the native and had violated all the contracts relating thereto. The object was to make the matter one for litigation after practically making the native a bankrupt. The native has tried to interest other white men in his case, and invariably after getting the facts they fell under the influence of the merchants in Liverpool to extract further large sums of money from the native for even contemplating remedy by litigation and by making it impossible for the native to go to court to recover. This is only one out of hundreds of incidents of natives being robbed by European merchants. This method is not much removed from the methods used in the Southern States of the United States to rob the Negro of his labor and produce. In the West Indies the native small settlers are robbed almost similarly. This as you will see reveals an awful state of affairs, and it is this kind of unfair dealing that is practiced by the supposedly friendly white man that causes him to regard with suspicion any intelligent Negro who attempts to enlighten his race so as to prevent the continuation of such robbery and exploitation.

Make Exploitations Difficult

We who are in earnest must assume the responsibility, caring not what the cost may be, to present to the people

these facts so that they may be guided in the way as to make future exploitations more difficult.

Do For Yourself

I am appealing to all sections of the race to realize that their success depends not upon what others do for them, but what they can do for themselves. The Negro who will attempt to impress upon his race the belief that we can only prosper by the benevolent help of others and not by our own initiative is the man who is endeavoring to shackle the Negro and still keep him the slave of his economic environment. The Negro must cut loose in thought and in action from all those external influences and hold fast to his own ideals and prosecute them with a great rigor if he really is to survive as a man. Any other urge is bosh and cajolery that will lead to no good purpose racially.

Have Eyes Open

I am in Europe, as you know, and I am looking around and my conclusions are not arrived at by any simple or reckless methods. I am here with my eyes open probing to the last everything and anything that would tend to affect the Negro in his relationship to the world and in his hope for an autonomous nationalism.

Conscience of Politics Dead

The conscience of politics is cold and dead, not only so here but everywhere. It is for us to arouse a healthy public opinion by a thorough system of education. While doing it, the agents of evil are fighting as they have always done to prevent the promulgation of this education, but the struggling bulk of humanity in all climes is always anxious to hear the truth, and so there are millions of Europeans who are anxious to hear the cause of the Negro, and without any flattery I can state that we have already aroused the attention of large numbers who are willing to co-operate with us to see that the black man is saved to the world and not continued as a peon and a serf.

Difficult Task

The task we have undertaken to educate Europe is difficult, but it is possible, and we are on the firing line of making it a reality. I only ask that every unit of the race brace up, take new courage and stand behind the Universal Negro Improvement Association. Again I say to each and every one to cheer up and look forward to a redeemed Africa and an emancipated race.

With very best wishes. I lowe the honor to be Your Obedient Servant,

Mareurfanes

President-General, Universal Negro Improvement Association.

TTTITH these words Marcus Garvey gave the keynote of his people, his message was intended for all the world. At the outset recreant to the trust which Sun Yat Sen has bequeathed. of his speech, we are told, he evoked applause as he reminded his

We are men; we have souls, we have passions, we have feelings, we have hopes, we have desires, like any other race in the world.

And be added: The cry is raised all over the world today of 'Canada for the Canadians," of "America for the Americans," of "England for the English," of "France for the French," of "Germany for the Germans"-do you think it unreasonable that we, the blacks of the world, should raise the

cry of "Africa for the Africane"? Later in his speech, again stressing the Negro's realization of his manhood, Mr. Garvey said:

I want to say to you that up to now you do not understand the Negro. You cannot scare the Negro any more. The Negro is a man. We represent the new Negro. His back is not yet to the wall; we do not want his back to the wall, because that would be a peculiar position and a desperate position.

And again he made his hearers sit up in their seats as he declare We are not going to be a race without a country. God never intended it; and we are not going to abuse God's confidence in us as men. We are men-human beings, capable of the same acts as any other race; possessing under fair circumstances, the same intelligence as any other race. You do not know Africa. Africa has been sleeping for centuries-not dead . . . you can enslave, as you did for 300 years, the bodies of men; you can shackle the hands of men; you can shackle the feet of men; you can imprison the bodies of men, but you cannot shackle or imprison the minds of men.

The most picturesque character in Africa today is the Zulu witch doctor and medical man. He is a relic of a bygone age, but he is still present, very much alive and active. He practices surgery, medicine and midwifery, and there are a hundred million people in Africa who have him as their only medical help in time of sickness, says Dr. J. B. McCord, writing in Hygela, the health magazine published by the American Medical Association, from many years' experience in medical work in Africa, on "The Zulu Witch Doctor."
