GARVEY LINKING HOOVER AND FIRESTONE IN SINISTER LIBERIAN RUBBER PROJECT URGES NEGROES TO VOTE FOR SMITH

Fellowmen of the Negro Race, Greeting:

According to the latest report from America, Harvey Firestone is at the old game again trying to deceive the public in explaining himself out of the already disgusting Liberian rubber outrage which he perpetrated with the assistance of Mr. Hoover, late Secretary of Commerce of the United States and now candidate of the Republican Party for the Presidency of that country.

Hoover and Firestone Are Together

Firestone and Hoover endeavored to reduce the independent Republic of Liberia to an American commercial state and to reduce the black people of that Republic to a virtual state of slavery. That Mr. Firestone has denied that he has black slaves in Liberia is to be expected, but those of us who know what is existing in the world of politics know that he forced a bargain with Charles King, President of Liberia, and his Secretary of State, Edwin Barclay, whereby he secured the guarantee of the Liberian Government to supply free labor for the building of roads in access to his rubber plantations, and it is a known fact in Liberia and among the statesmen of the world that the Liberian Government, under the lash of Firestone and the State Department of the United States and Hoover, forced thousands of Liberian natives to work without pay, during rain and sunshine, to build certain roads, for which they received no wages, nor food, nor proper accommodations. Mr. Firestone is trying to impress our civilization with his generosity of paying the Liberian natives good wages. Will he tell us what the good wages are? Isn't it a fact that he is paying the natives on his plantation less than 15c a day? Is this what he calls a good payroll, according to his interview with the New York World?

Pay No Attention to the Lies of Firestone

I feel sure that no Negro in the world, and particularly in the United States, will pay any attention to what Harvey Firestone has said by way of explaining himself out of the commercial outrage on Liberia.

We know Firestone for what he is—a cold-blooded commercial murderer, backed by Herbert Hoover, and one out of many cunning and crafty capitalists creating the greatest trouble in the world today between the weaker and oppressed peoples and their mandatory and protectorate governments. The world wants less of men like Firestone;

men who take their money and use it in bribing politicians and statesmen so as to deliver to them commercial privileges that they could not have received otherwise.

A Vote for Hoover Is a Vote for Slavery

It is a shame that Mr. Hoover should lend his assistance to men like Firestone to throttle the political independence of a black Republic like Liberia. There is not a Negro in America who in the face of this outrage can be so racially unpatriotic as to cast a vote for Herbert Hoover. Hoover has become the trail-blazer and the protector of big soulless business, that big business which seeks to rob and destroy the working masses.

Do Not Shackle Yourselves

A vote for Hoover is a shackle of economic and chattel slavery which the Negro is endeavoring to escape. It is true that Hoover and Firestone have had it easy for a long while fooling the ignorant people, but now they must calculate with the new intelligence that leads the Negro, and the declaration has gone forth that they shall not succeed in their unholy scheme to deprive Liberia of her political autonomy and reduce her black people to slavery.

Firestone Should Get Out

There is but one decent thing for Firestone to do, and that is to pack his bag and baggage and clear out of Liberia, for before many more years he will be kicked out. Firestone has no right in black Liberia. Furthermore, we are not going to allow him to exploit black men for the enrichment of his group, who have no sympathy for the Negro.

He and Hoover are trying to deceive the American publice by stating that it is for the good of America that these rubber lands must be developed in Liberia. This is their old trick of trying to show disinterested people how they should become interested in selfish commercial projects at the expense of the nation and other human beings. But the American whites and the Negroes are not going to be fooled any more, so vote against Hoover every time.

Hoover Has No Claim on Negroes

A vote for Hoover by a Negro means that he is helping Firestone to use the American Navy and Army when necessary during the Presidency of Mr. Hoover to enforce his dictates and will in little black Liberia.

More to Be Said About Hoover and Firestone

There is much that can be said to further expose the political and commercial alliance to rob and exploit Liberia and Haiti and the Negroes, but we are not prepared to give the entire expose at this time. Suffice it, however, to say that it is the duty of every Negro in America to cast his vote in the forthcoming election for Al Smith and pass over with scorn and disgust the name of Herbert Hoover.

Vote for Al Smith

Any Negro who votes for Herbert Hoover is disloyal to his race, is an enemy to his race's progress and can not longer be regarded as a patriotic member of our group. I say to every Negro who has a vote, whatsoever influence is used upon you to cast that vote for the Republican Party, discard it and vote for Al Smith. If your employment is threatened, let no one know how you are voting, but vote for Al Smith. This is my warning to the Negroes of America who may not clearly understand the issues now involved.

With very best wishes, I have the honor to be

NEW YORK, August 26.-Today was a great day in New York, marking the celebration of the anniversary of the declaration of the Negro "Bill of Rights," as given to the world in 1920 at the First International Convention of Negroes. Nearby divisions, prominent among which was the Philadelphia Division, sent contingents to the metropolis for the occasion. Brooklyn, N. Y., Hartford, New Haven and Norwalk, Conn., Newark, Montclair and Roselle, New Jersey, and Wilmington, Delaware, were represented, while from far-off Columbus, Ohio, a delegation of stalwarts was on hand.

The day's proceedings began with divine services at the Commonwealth Casino at 11 a. m., the Rev. Simon Fisher, of Montclair preaching an inspiring sermon in which he urged upon Negroes the necessity of holding fast to the faith of African Redemption, while not failing to place trust in the Great Redcemer.

NEW YORK, SEPTEMBER 1, 1928 "ANXIETY AND PERPLEXITY"

REAL insight into the reaction of the British people to the

visit of the Hon Marcus Garvey to Europe and his activities there in behalf of the Negro race can be gained from a careful reading of an editorial which appeared in the Beliast Telegraph on August 4, and which is reproduced on another page of this issue of The Negro World. This powerful Irish daily confesses that the coming of the Hon. Marcus Garvey to England has quickened the interest of the public in the race problem, and, after citing figures and facts, haltingly admits that the trend of Negro affairs (our Irish friends might with greater candor have said "Garveyism") is giving [1MPLE, forceful, practical and constructive, the address with numbers have recontly been employed the statesmen of Europe and America much "auxiety and perplex-

Striking Sayings from Smith Speech

Government should be constructive, not destructive; progressive, not reactionary. I am entirely unwillingly to accept the old order of things as the best unless and until I become convinced that it cannot be made better,

It is our New World theory that government exists for the people as against the Old World conception that the people exist for the government. A sharp line separates those who believe that an elect class should he the special object of the government's concern and those who believe that the government is the agent and servant of the people who create it.

Dominant in the Republican Party today is the element which proclaims and executes the political theories against which the party liberals like Roosevelt and La Follette and their party insurgents have rebelled. This reactionary element seeks to vindicate the theory of benevolent oligarchy, t assumes that a material prosperity, the very existence of which is chaltenged, is on excuse for political inequality. It makes the concern of the government not the people, but material things. I have fought this spirit my own State. I have had to light it and to beat it in order to place upon the statute books every one of the progressive, humane laws for whose ensetment I assumed responsibility in my logislative and executive career.

It is a fallacy that there is inconsistency between progressive measures protecting the rights of the people, including the poor and the weak, and a just regard for the rights of legitimate business, great or small. Therefore, white I emphasize my hellef that legitimate business promotes the national welfare, let me warn the forces of corruption and favoritism that Democratic victory means that they will be relegated to the rear and the rant seats will be accupied by the friends of equal opportunity.

That direct contact with the people I propose to continue in this campaign and, if I am elected, in the conduct of the nation's sifairs. I shall thereby strive to make the nation's policy the true reflection of the nation's bleads. Because I believe in the Identism of the party of Jefferson, Clevehand and Wilson, my administration will be rooted in liberty under the law; liberty that means freedom to the individual to follow his own will so long as he does not harm his neighbor; the same high moral purpose in our conduct as a nation that actuates the conduct of the God-fearing man and woman; that equality of opportunity which lays the foundation for whole-

Su mayor crimen es la disipasión que menoscaba su hombria y su carácter. Para mi concepto y no tengo duda de ello de que este es el porque de ser corteses y hospitalables con el hómbre negro, porque dada mi observación he llegadoa las conclusiones de que los franceses dependen grandemente de su poder colonial enclavado en Africa, para soporte en los tiempos de lengadoa. Los Alemanes por el contrario dependen exclusivamente de ellos mismos y de sus aliados.

Negroes Must Not Help Race Extermination

To the Editor of The Negro World: I have read with intense interest your comment on Sir Leo C. Mooney's remarks where he recommended the "birth control" idea for the depopula-tion of Negroes. I wonder how many Nogrnes have read, marked, learned and inwardly digrated the sentiments of that assertion. In endeavoring to patronize the white man in all his ovements the Negro does things to his mental, physical and spiritual detriment. Many volumes are extant his mental, physical and spiritual the doctrines of the U. N. I. Such an indulgence is good for the white race whose existence on this white race whose existence on this planet is causing it to be a pande-monium. But the Negco race wants more men and women. So sugent is our call for more population that every loss of a Negro is a vital blow to the edifice of Negro strongholds, Negroes must be wise and observe the signs of the times.
