The Black Race Faces A Crisis

Friendless and Forlorn, Black Men and Women Must Make Up Their Minds to Fight Determinedly for Their Own Salvation and Survival: Dependence on Others Spells Doom

Fellowmen of the Negro Race, Greeting:

Probably this message, today, is one of the most serious and appealing I have ever written in all by communications to you. It is serious and appealing because I realize how awful it is for the black man to continue flattering himself in the belief that he has a hopeful future not of his own making. I am writing to you from the fullness of my heart and from a complete knowledge of the situation in which we live as a race. By every pain necessary, I have gone through the details of our relationship with the surrounding world, and I have discovered that the black man's case, left to others, is hopeless, and he can only survive if he fights for his own accomplishments.

There Is No Love in the World

The world may smile at you and smile around you, but deep down at the heart of the human world there is no love for you but that which you maintain for yourselves. This may seem outrageous in a world where we profess Christian love and fellowship; but men, in spite of all the religious and moral teachings that man indulges in, when it comes to the black man, he is left in the cold to fight his own way through if he is to survive the condition of a slave. serf or a peon. The only friend the black man has that is real is God. Believe me when I state this, because I know what I am talking about. Let no pseudo-angelic, no highsounding philosophy enunciated by the divines persuade you at this time not to act as black men in your own interest and for the good of your own posterity. The world is cold and bitter around you and is engaged in the fight of the survival of only those groups that are strong enough to impose their will upon other mortals and ultimately to exterminate them.

Our Religion a Pretense

Our religion and our moral philosophy are but a pretense when it becomes a question of race. The Jew holds tenaciously to those principles and those doctrines that suggest the survival of the Jew. The Anglo-Saxon or Anglo-American, in a family group, holds on, with a death grip, to those principles and policies that mean the perpetuation of Anglo-Saxon domination. The Teuton, the Celt and every branch of the Caucasian family live only for those ideals that mean the perpetuation and domination of their particular group. The Mongolian has caught the spirit of the age and is fighting most aggressively for the husbanding of those rights that affect particularly the Mongolian race; and so in the midst of all our world pretenses there is but one thing for the black man to do, and that is to hold fast, tenaciously and determinedly, to the principles and policies that will keep the Negro and cause his survival in the midst of universal selfishness. Oh, if I could only stir the heart of each black man in the world to realize that the time for organization is now-not tomorrow, nor next month, nor next year, nor the next decade, but now-if Africa is to be redeemed, if the black race the world over is to be saved! This can only be done by our activities now, or never. I have made up my mind to fight for the emancipation of the Negro and for Africa reHon. deemed as never man has made up his mind before. I measure my duty, not by the pains and sacrifices I suffer and make in the fight, but by the good that I can do for my generation and the posterity of my race. A similar attitude I appeal for on the part of every black man and woman and child in the world. This is no fun, this is no farce; this is a reality, and we must universally do it.

Up Against Organized World

You are up against an organized world that shall damn you, that shall trample you even to the remotest depths of hell, if you do not fight to save yourselves. We shall save ourselves. No power on earth shall prevent us but the Power of God Almighty. He shall not oppose us, because He has been our Savior and our only Friend through the centuries. You must still grasp His hand, but with courage and manhood to go forward to save yourselves, and then He shall save you. I am appealing to you, black men and women, in all earnestness. This is no dream, this is no fairy tale. You are living in a world of reality, a cold-blooded, indifferent world, where no one loves you but yourselves, where everything you shall achieve shall not be by the good will of others, but by your own determination. For God's sake, black men and women, come together as one body. Many of us, and millions, have been stubborn, have tried to impede our own progress, have tried to discourage those of our own when they tried to show the way; but let me tell you that that attitude has been responsible for our present condition, and if you continue it we shall die as surely as the sun shines.

Cease Fighting Among Yourselves

Cease fighting among yourselves; cease your internal, parochial, insular, national and state jealousies and prejudices and realize that you are one people, claiming one ethnic origin, and that you cannot grow and perpetuate yourselves except you come together in one solid body. You must depend on your own power to achieve in the world; you must go forward by your own initiative. Be assured of the fact that there are potential powers within you and that you are as capable as any other people in the world. What others have accomplished, you also can accomplish. There is nothing that others have done that you cannot do. You can build townships, you can build cities, you can build principalities, you can build nations and empires, if you will. Let no power on earth persuade

you to the contrary. You are men, you are human beings, and shall exert that power with which God has endowed you.

Africa is your own; it is your homeland. So you must work to redeem your country and emancipate your race the world over. This is the arge; this is the one call that must resound around the world today; and so I pray that you will realize how serious it is. Let us go to work; let us make the new year of the organization's activities the greatest that we have ever experienced. When another twelve months shall have rolled by, let us by our united effort show the world that we are a determined people—determined to rise, determined to live, determined to perpetuate our posterity, as it is the right of every race and group to do.

Mind Full of Knowledge

Remember, I am writing to you from a mind of knowledge, knowledge not gained sentimentally, nor superficially, but gained by scientific investigation and keen probing. What I know, I know; and all that I can do is to advise you. Let us move together to save ourselves and redeem our country. Let no bluff of other ruces or nations persuade you against your own interest. Any man of any race who would try to argue you out of your effort of self-salvation is your enemy—he has a design upon your life and upon that of your children; be seeks not your feilowship, but your destruction.

Watch Your Step

to "Watch Your Step." The world is gereing organized more and more for definite ends. It will be a case of the survival of the particular group at the full expense of others who are not sufficiently prepared. Don't allow yourselves to be found wanting, but with the vision of the seer, let us foresee the end. It is ominous in the description of the inactive or unprepared blacks, but Lebeltons and encouraging for a prepared and self-respecting race that shall move itself in action. If advise you to the linear

Great Hopes

I have great hopes if you realize the significance of what I say that we shall, by immediate action, rise to be a great people in the world. It is for that reason that I tee! happy to be a leader of the movement—and one of its followers also—that shall bring emancipation to the black man and redemption to his country. For God's sake, let us work together to that end.

With very best wishes, I have the honor to be.

Whether we agree with Garvey's minor positions or not, the broad platform f The Redemption of Africa ought to be accepted by every Nogro. It is unuaterial if all of us would go to Africa. Some of us would not like to go to Africa. The programme, as it is understood by us, lays emphasis on this fact. The same as the white man is self-governing, the Negro should be self-govern ing also. According to the geographical distribution of the races, our place could be in Africa. There was a time when there was an Ethopian Empir The present Abyssinia was a part of that Empire. out among five European powers and one State ruled by white South Africans. herefore, it is by no means an extravagant statement to say that Africa is overned by white people. Asia is crying out against white domination. Why should not Africa? There is a spiritof nationalism everywhere. In this social certex the Negro is caught up with the rest of the down-trodden people of the world, and is crying for a redeemed Africa.

The Servitude Complex

What is there in this cry that calls for such a bostile response from a pertain section of the Negro race? There is nothing strange in this attitude. We can well understand it and find a parallel in history. What is really strange to us are the arguments adduced by these subjects of King George and tizens of America. White people, the same as black people, have displayed this temper of the servitude complex. The slaves of Prussia signed a petition States Marshals or Federal Collectors against their own emancipation. The slaves that were set free in England of Internal Revenue. It will be re- cursed Granville Sharp, because they were set free. They could not see garded as confirmation of the many themselves as free men. He says, "The new Neura wonders how the We, as a race, are insignificant, compared with the remainder of the family We, as a race, are insignation, continued, liberal, internal that inhabit Africa." Here the writer makes the sitty blunder of speaking of white people of the North, East and the West Indian and American Negro as "We as a race." "We have been rather amused during the past week, because of the remarkable antics of the colored leaders, in respect to the declaration of the Hoover directors, to the offect that the usual 'run' of colored political leaders were to be ignored in the selection of those who are to direct the approaching campaign, and that the directors for the colored section of the Republican campaign would be brought out of the 'house of bondago,' with the Principal of Tuskegee Institute, Robert R. Moton, as the chief of the group. According to the Washington Tribune (Republican), there are now three groups of colored politicians, seeking to obtain the control of the Hoover 'tail-wagging' among the colored voters; Moton of Tuskegee, Emmett J. Scott of Washington, D. C., and Porry Howard of

Confidence in Self Can Redeem Race

SOME SECURITY OF S

To the Editor of The Negro World: I have read in the white papers and some of the Negro papers the term "dresmer" in speaking of Garvey. The white papers use the term in trying to ridicule a far-seeing man. The Negro papers are simply parvoting as usual. When we look back through the evolution of the human race, we find many dreamers. All undertakings, great and small, are but the dreams of great minds. Some great men have been even called insone, and today the world is reaping the benefit of their insanity. The people of today are not as skeptical as they once were, having seen what was at one time. considered miracles performed. The Negro is still a wee bit dubious about things his own people attempt, and atill he has an overmastering belief men as Marcus Garvey, the dreamer, in the white man, after all the lies, and help him to fulfill his dreams as frauds, deceptions that have been heaped upon him for years he is their dreams. heaped upon him for years, he is still a loyal follower and believer in the white man. If only the Negro of to-day would put the confidence in his people that he places in the white man, we would be the wonder race of the world. If we would only believe in the man that is called the dreamer. I wish God could give us more dream-

The unpartionable sin of our race is selfishness. We are generous in the present but selfish of the future gencrations. There is no hope for a people that makes no preparation for their future generations. I wonder how many of us would have our children suffer the indignities that we suffer? In the United States we have wealth, aulture and everything that other people of other races possess, but we cannot enjoy it as they enjoy theirs,

toward a future for our long-decelved

the constitution notwithstanding. Our dreamer looks forward and sermy country, and realize that it means just that. Our great political leaders, the N. A. A. C. P., the Equal Rights League and other uneless organizations will tell one that this is just as much our country as any one of Amer-loan birth. If this is so, why the necessity of such as they. I would that all of us could see the irony of the National Association for the Advanceuser 1 of Colored People. They are only us the colored people, probably why the Nagro has such rough

vertise that during the year they have investigated ten cases of whippings, three cases of lynchings; but they only investigate and get no convic-tions, and while they are investigat-ing there are as many more taking

place over the country. When the dreamer points the way to avoid this for our future genera tions, they look horror-stricken. But today we see much unrest.

There are thousands of Negroes that see as Marcus Garvey sees and who are not afraid to throw off the not answer the call of but a single blood, and that mixed blood makes weak men, then and not until then car we let our confidence repose in such other races have made the dreams of the insults, the rackless charges of the

their dreamers realities.

I believe that race confidence is increasing. Although we are handlcapped by men such as DuBois and his kind. Another handicap is the Negro preacher who advocates prayer for everything. Prayer is a wonder ful thing, we admit, but action is what we are most in need of now. I would like to know what would have happened to Haiti had their immortal jeader advacated prayer instead of action? Let us roll up our sleaves and get to work, and, if we must fight among ourselves, have it over as soon as possible and get back on the joi of carrying out the principles of Mar cus Garvey and the Universal Negro Improvement Association.
