Mr. Garvey Fires Broadside at Unscrupulous White Group That Is Trying to Blast The Hopes of the Negro Race

Fellow-Men of the Negro Race, Greeting:

Once more it is my duty to call to your attention the subtle effort of a certain section of the white race to undermine and destroy every legitimate activity that tends to promote the absolute interest of the Negro race. That there are Negro haters in the world, no one can deny, but some are more rabid and vicious than others. It is to this vicious and rabid group in America that I desire to direct the attention of every Negro in the world.

Program That Means All to the Negro

It goes without saying that the program of the Universal Negro Improvement Association is the only one up to the present that really means anything to the Negro as a man. It seeks no half-hearted or insincere compromise of an issue that can only be honestly and honorably stated. Without any apology it states the desire of the Negro as a man. This statement of fact is not relished by that element of the white race that has perpetuated its prejudice from slavery down to the present. Such white men are the dregs of the society of their race who make all the trouble there is in the world between the races and who perpetuate the hate of the one for the other. Such men you will find scattered here and there in private life, in public life and in governmental life; such are the vagabonds whom not only Negroes must watch, but the white race itself, because they mean no good to the white race but to make enemies who may some day or other show that God never made one race or the other to dominate permanently.

Will Not Always Rule the World

It is foolish for the white man to believe that he is always going to rule the world. Therefore, when he piles up hate, he is only suggesting a reward for his generations to come which might not be pleasant. For anyone to believe that he can permanently disorganize and disable the Negro is to suggest that man can permanently disorganize the works of God. The black man's place is cut out in the world; Nature has made it, and there is no prejudiced group of white men, nor anyone for that matter, who will stop him on the way to the accomplishment of his end.

Frame-Up for Purpose

When I was framed up by white men, along with other Negroes in America, it was not so much a plan to harm me, but they intended to harm the principles I represent. They thought my imprisonment and deportation from America would have brought an end to the Universal Negro Improvement Association; but let me tell the fools that the mighty work of the U. N. I. A. is just getting under way, and with the force of the mighty avalanche, they, the few prejudiced whites, will be snowed under. There is no machination, there is no deviltry that they can plan that we are not able to offset.

The Method Used

Unscrupulous men may try to thwart the U. N. I. A. in America, but they must remember that there is a whole world to cope with. We shall fight even to the gates of hell to see that the Negro's hopes and aspirations are not thwarted. It is well that the respectable white people of America see to it that the few prejudiced men of their race do not write such foolish history as to make it impossible for their generations to justify their acts. God made 400,000,000 black men to live like men and not like dogs; therefore, no cunning tricks by any unscrupulous white group shall thwart us. We shall let the prejudiced white man know that no one fears him, but that we are going to give him a fight to the bitter end. His little dirty tricks may embarrass us for the time being, but, by the gods that be, we shall fight until hell freezes to bring the changes that must come.

It is rather encouraging, however, to know that the Negroes of America will not bow before this devilish

prejudice that is intended to throttle their hopes, and, with the enthusiasm that is general of the Universal Negro Improvement Association, have continued to link their hopes with the scattered millions throughout the world who are willing to co-operate with them for their emancipation, politically and economically. We, the Negroes of the United States of America, South and Central America, the West Indies and Africa, will allow no prejudiced group to disable or disorganize us, but we will hold fast. Let the fools labor as they may to harass the U. N. I. A., but like the wind they cannot incase nor can they stop it. Nature and Nature's Gods have written in the laws that Ethiopia shall stretch forth her hands. Ethiopia is stretching forth her hands. We are going forward. We are stronger today than we ever were despite all that has been done. Is that not encouraging? Is that not proof enough that we cannot be thwarted? What is this prejudiced group of white men going to do?

Big International Convention

We are looking forward to our International Convention, at which time we shall legally and properly ring the changes, and then we shall rise again to face the world with a greater determination to see that Africa is redeemed and the Negro race emancipated everywhere. Mr. White Man, what are you going to do to stop the onward march of the Negro? The majesty of government should never be used to throttle the hopes of an unfortunate people.

It is a pity that the majority of the people cannot see how this prejudiced group is destroying their morals. It is good, however, that we have fair-minded men in Europe and America, of the white race, who will constitutionally stop the prejudiced white man from unlawfully attempting to crush a struggling race; to such class we appeal for fair play.

Unscrupulous Group

I have had enough of that unscrupulous group of prejudiced white men who have used me as a scapegoat to rob the poor black people. First they said that the Black Star Line was a failure; yet five years after the rogues got hold of the twenty-five thousand dollars lodged with the Shipping Board to purchase a ship for the Black Star Line, and divided it up among themselves—the crooked white lawyers of New York and others got the black people's money.

Who Are the Rogues?

Who are the rogues? They are the rogues, not Marcus Garvey, and very soon sensible men will find it out. Later on we purchased the S.S. General Goethals for the Black Cross Navigation Company; we paid two hundred and sixty thousand dollars for the ship, and they manoeuvred to take that ship away from us. While I was in prison, the ship was sold for twenty-five thousand dollars by the sheriff. Later the ship was resold for ninety-five thousand dollars. Whom do they think they are fooling?

Constitutional Agitation

Let me say to the Negroes of the world, let us not lose heart, but let us gird on our armor of constitutional agitation and continue to hammer until the fair-minded, honorable and just of the white race hear our cry.

Let us look forward to our great convention. With very best wishes, I have the honor to be

Garvey Has Proved Fitness to Lead

The phenomenal growth and perma nence of the Universal Negro Improvement Association has proven baffling and miraculous to many, but all intimately acquainted with the nature and character of the founder and organizer, Hon. Marcus Garvey, hold no such

The irresistible magnetism of Marcus Garvey has been created by no extraordinary attributes. This man is possessed of personality plus; his intellectual attainments command the respect and admiration of all intelliminds; his fearlessness and unique courage are virtues of which any race might well feel proud; his unwavering confidence in the possibility of his dreams and realization of his program are characteristics de-serving of the highest praise and com-

and above all these admirable traits stands the righteousness of the creator and his loyalty to his convictions. As reads the Scriptures: "Righteousness exalteth a nation, but sin is a reproach to any prople," so has the righteousness of Garveyism exalted the reputation and prestige of the Universal Negro Improvement As-sociation. It is such a quality tha made the organization a beacor light for all the Negro peoples of the world. Not only Garvey, the Man, but rather the ideals of GARVEYISM should be emulated by all its follow-But none can dispute the fact that Marcus Garvey has proven himself an appropriate and fitting fore runner of the New and Awakened Ne-gro. Therefore, none should envy gro. Black Men Must Answer The Call of Africa

To the Editor of The Negro World: Providence has sent us a Moses who is no less a person than the Hon. Mar-cus Garvey, bringing the message of universal co-operation. It is true that to reap the full fruits of this great plan of racial unity men of courage, ability and integrity must volunteer to lay the foundation of nationhood upon the so-called dark continent of Africa, abounding in mineral wealth, fertile fields, virgin forests, mighty rivers. sparkling streams and, notwithstanding false propaganda, with wholesome climatic conditions and all that maker for health, happiness and the prosperity of a nation. Yet there need be no wholesale exodus from our present homelands. Our blood is in the soil and we have paid for our rights even we do not possess them. We have paid with sacrifice on the bloody field of honor and in ample contribution to the material and spiritual development of this nation. An immeasurable service may be rendered to this great movement by each one of us by whole-hearted support of the U. N. I. A.

In order that we may establish com-percial and industrial enterprises wherever the conditions may warrant such undertakings, that we may thus aid our rapidly increasing army of unemployed in obtaining a livelihood, and that we may become a potent factor in the economical life of the world in

which we live, we must provide for ourselves and advocate our cause bethe councils of the mighty.

On the great continent of Africa. whose undeveloped resources defy estimation, millions of our stalwart brethren, hundreds of thousands of whom are loyal adherents of Garveyism, stand waiting for the leadership that Afro-America can and must sup-
