Hour Has Come for Negroes to Stick Together, Live Together If Need Be Die Together

Fellow Men of the Negro Race, Greeting:

Allow me once again to convey to you my deep sense of appreciation of the splendid, untiring efforts which you are making at this time to hold aloft the banner of the Red, Black and Green.

Be brave, be loyal, be steadfast against the day when I shall return to you, better equipped than ever, to point the way to our great objective, to a free and redeemed Africa.

The Battle of Wits

The world is an eternal battleground. The beings who live in it are the soldiers who are engaged in this eternal conflict. At the present time the human race is divided into many camps, each camp endeavoring to outdo the other. We who constitute one of the warring groups seem to be the least prepared for this conflict. On every hand you will see the different groups being marshalled by their most competent generals or leaders for the purpose of holding their respective places in the affairs of the world. Unfortunately, for a long while we refused to advance our cause under our own leadership. We divided ourselves and aligned ourselves with the different groups or with the different camps and have gone to war with them. Hence, in the past and even now, we find Negroes fighting under the banners of England, of France, of Italy, of Spain, of America, while the other groups or the other peoples fight under their independent banners. We refuse to recognize the fact that we should fight under a banner of our own, but, as I said, aligned ourselves with all the other forces, scattering ourselves, and thereby defeating ourselves at every turn.

The Hour for Negroes to Stick Together

The hour has come for Negroes to get together and stick together and live together, and if we must die, to die together. The most dangerous enemy of the race at this time is that Negro who is telling us that all the world is not so bad and you must exercise patience and the rest of it because the other fellow's going to be good. He is the most dangerous member of our society. The world is not going to be good until Christ comes back, and nobody knows when He is coming. He may not be here for another million years. During that time if

Negroes Must Get a True Concept of Life

Life is serious; life is earnest. If the 400,000,000 Negroes must live, they must first get a concept and a true understanding of what life means. Life does not mean playing the fool. Life means being alert at all times, being on the qui vive and being ever ready to protect your own existence. It is for that that we of the Universal Negro Improvement Association fight at this hour.

The Fight for Mastery of the World

If the Negroes of the world do not get ready to match their wits against the wits of the world or match something else, they are face to face with hell—the hell that we have been told about ever since we came into the world. There is going to be hell down here in this world in another few years, in the battle of existence between the different racial groups for the mastery and the possession of this world. It is for that that the great Caucasian race is lining up itself; it is for that the yellow and darker races of the East are endeavoring to line up, and if you do not realize your position and organize and fight to extricate yourselves out of the dilemma in which

you are going to be placed by these different groups, you may as well sing your requiem.

If Your Children Must Eat

I am appealing to you in all parts of the world to drop your sentiment and face the world with facts, because you are living in a practical world. The fight is for your loaf of bread. It is fight and struggle to the end if you must cat, if your children must cat, if your grandchildren must cat and posterity must cat. And if you don't lay the foundation now for preserving their part of the wheat and the meat when they come they will have nothing but the chaff and the bones.

Serious Times

We are living in scrious times, Negroes. Trust no one but yourselves. Trust no one but God, that God who has not, as some would believe, taken away creation as He was to the white man, the red man or any other man; that God who has not forgotten us; that God who ha snot, as some would believe, taken away from us anything that we should have, but that God who naturally must be displeased with us because of our own lethargy. I want to impress upon you you have a tremendous responsibility resting upon your shoulders, a responsibility for your own generation of today and a greater responsibility for your children of tomorrow. If you Negro peoples of the world do not fight in this battle of wits, if you Negro peoples of the world do not fight in every way possible, your children shall curse you and damn you for perpetuating this race for bringing them into existence and bequeathing to them nothing else but the husks of your life.

With very best wishes, I have the honor to be Your Obedient Servant,

Marenfaney

The hymn "Shine On, Eternal Light" was sung, and as the strains wafted upward, and blended with the splendid music rendered by Prof. Hassell and his band, the spirit of Negro Freedom and African Redemption had a rebirth. Eyes gleamed with a new meaning; and fainting spirits caught the fire.

On the platform were: Mrs. Capers, Lady President, Mrs. L. McCartney, Lady vice-president, Dr. Land of the Newark, N. J. Div., Com. James, of Gary, Ind., Ex-Com. Boltram, and other officers.

We mitst respect ourselves in order to command the respect of others. Every Negro should ask himself or herself this question, DO I RESPECT MYSELF?

The program of the Universal Segro Improvement Association is the proper answer for all Negroes desiring better conditions, socially, econo mically, educationally, and politically White races do not believe Negroes ment of white legislators. A strong black African nation will put an end to all this umest and discontent; it is our duty, our job, and our determina-tion: APRICA MUST BE RE-DEEMED!
