VOL. XXVIII. NEW YORK, JANUARY 10, 1931 No. 24

Genuine Leadership

OUR young friends, the editors of The Gary American, lamented recently about the lack of effective leadership among the Negroes. In their analysis of the existing leadership they found both the N. A. A. C. P. and the Urban League grossly wanting. As is well-known, the latter two suffer from two vital maladies: too much white "guidance" and lop-sided intellectualism which looks at the masses sneeringly.

Of the great leader of the Universal Negro Improvement Association they had to say the following: "Marcus Garvey comes closer to | the masses than any other Negro leader;" but they are under the misapprehension that "his program is not fitted for Negro advancement in the United States." Such a statement is, no doubt, due to lack of informed understanding of the entire Garvey movement.

It does not mean that every Negro in America has to migrate to Africa unless he feels like and unless he sees an advantage in so doing. If there are better opportunities open in Africa for the American Negro he would, we have no doubt, go there of his own accord. Witness some of the Howard men that are already going to Abyssinia and will hold work out their problems. The difference is only in degree, but the principle is the same.

In effect, all that Garveyism wants to do is to establish a mighty, no one to follow, and on the other of progressive NATION in AFRICA where the Negro can develop himself to the fullest without any discrimination. Let that nation be another America to which every Negro wherever he may be living, whenever he is persecuted and maltreated, might go seeking a welcome refuge from is persecuted and maltreated, might go seeking a welcome refuge from is persecuted and maltreated, might go seeking a welcome refuge from is persecuted and maltreated, might go seeking a welcome refuge from its form of invaders of our dear fathers and the sisters and brothers who profess to be His ambassadors and the sisters and brothers who profess to be His ambassadors and the sisters and brothers who profess to be His ambassadors and the sisters and brothers who profess to be His ambassadors and the sisters and brothers who profess to be His ambassadors and the sisters and brothers who profess to be His ambassadors and the sisters and brothers who profess to be His ambassadors and the sisters and brothers who profess to be His ambassadors and the sisters and brothers who profess to be His ambassadors and the sisters and brothers who profess to be His ambassadors and the sisters and brothers who profess to be His ambassadors and the sisters and brothers of the Question of the Negro people is the question of the Negro people is the question of the Negro people is and the sisters and brothers of the unsured so that unbroken if not unarmed she may pursue her prosperous voy- age far down the stream of my blood and my profess to be His ambassadors and the sisters and brothers of the Question of the Negro people is the question of the Negro people is the question of the Negro people is and the sisters and brothers of the question of the Negro people is the question of the Negro people is and the sisters and brothers of the unsured which will define the question of the Negro people is the question of the Negro people is and the sisters and broth

Another thing that will happen if Garveyism is crowned with success is that it will make the lot of even the American Negro a little more secure. For a mighty nation of Black Men in Africa will be an awe-inspiring thing to even the worst type of white in the South. Has not inspiring thing to even the worst type of white in the South. Has not the crowing of the Emperor of Alyssinia added a sense of pride to the American Negro, especially upon learning that a prince of England and a special envoy of the United States went and bowed low to a black emperor? What will not then a powerful, free United States of Africa do?

The U. N. I. A. Movement is an open movement and will embrace everyone that will come into its fold. It does not matter whether you are a Western Negroo an African Negro. If you believe in your own MANHOOD and WOMANHOOD, if you believe in your own of OVERNMENT and power you can join it is movement. Whether you would go to live in Africa or not is england into the meaning of Garveyism will make you a NeW MAN and WOMAN from the very day you believe in it.

Let, therefore, the younger generation of Negroes seek the real guided prospanda of the older generation against this wonderful movement. If they become convinced of its actual scope and intent let them not hesitate to join the ranks. We want young blood, we want intelligence at this moment to help Mr. Garvey to put over his program to the health of all Negroes whether they are active members of the but and all so like and a section of the subject of the propose of the search of the subject of the propose of the propose of the subject of the propose of the propose

The Causes of Latin Unrest PECENTLY, the entire Latin world from Spain and Portugal in the Cold World to Central and South Americas in the New has found itself in the throes of revolutions of various dimensions. Peru, Brazil, Argentina, Uruguay, Panama, Cuba, Costa Rica, Spain and others have gone through these convulsions in some degree. What is behind this unrest? Was it merely spasmodic, just a passing phase? We are afraid it is not.
