On Sunday the 5th of July, 1931, the officers and members, with friends, gathered at the Liberty Hall of Maidique Division, Ciego De Avila, Cuba to speak on "The Principle of Garveyism." Precisely at 3 p.m. Mr. Henry S. There came the words from the mouth of the Worthy Chaplain, with pointed remarks, on behalf of the oceasion, he called on Mr. Ernest. Dictator Roberts to occupy the chair as Master of Ceremonies for the eve-

THE RETURN OF MARCUS **GARVEY TO AMERICA**

Sign the following ballot and return it immediately to The Negro World office, 355 Lenox Avenue, N. Y. C.

THE PRESIDENT AND THE CONGRESS OF THE UNITED STATES OF AMERICA:

Whereas, Marcus Garvey, the founder and President General of the Universal Negro Improvement Association, has been unjustly, in our opinion, barred from returning to America:

Whereas, Marcus Garvey's services were invaluable not only to the members of the Negro Race but also to the nation because of his sound philosophy and good will for all;

Whereas, Marcus Garvey's affairs in regards to the Organization he represented were left in a deplorable condition due to the fact of his sudden removal from

Whereas, as a result of the government's action the welfare of the membership is being affected:

Whereas, Marcus Garvey's return, in the belief of the indersigned, will bring new hope and prosperity to the Negro as well as the Nation through the working of his courageous economic and industrial philosophy;

I, the undersigned, beg you in all earnestness to allow Marcus Garvey to return to our shores.

Address IMPORTANT: All signatures must appear on the ballots proper only, and one signature to a ballot.

(Continued from last week) Chicori removed from his pocket the scarlet ribbon which the wind had blown under his nose, and with which he had run out into the country. As you may have guessed, the beautiful scarlet-red ribbon was no plain everyday ribbon. It was filled with magic power.

When Chicori took the ribbon from his pocket on his chest, the burning which had been bothering him stop ped entirely. But now strangely, his brown right hand which held the bright red ribbon began to itch like Chicori put the ribbon into his left side pocket so that he could scratch his bothersome hand.

He scratched and scratched, and sure enough the itching stopped. But now, right beside the left side pocket in which the ribbon rested, the burning started all over again, just as if Chicori had a little bonfire in his pocket instead of a bright red satin ribbon.

Chicori wondered what on earth was causing it all. Wherever he put ribbon, the burning started as certain as anything. Chicori did not know what on earth he was going to do.

Preserve U.N.I.A.'s Sacred Principles, Haynes Says

(Continued from Page One) the lie to this gossip under the bril liant leadership of Richard Allen The U.N.I.A. under the dynamic lead ership of Marcus Garvey has demor strated the possibilities of Negro leadership in a greater degree than any other agency.

utterances, brought the Negro problem forcibly before the world. His courage and personality car-ried his fame to the uttermost parts of the earth, causing a great deal of uneasiness in the capitals of the im-perialist nations. More books have een written, more news has been printed, more academic discussion have taken place concerning the Ne gro and Africa; and more serious ef-forts have been made to give the Negro justice since the advent of Garvey and the U.N.I.A. than at any other time in our history.

5.—Garvey Deified black and gave Negroes a racial consciousness not before attained.

Before Garvey came "black" was a symbol of regret, excuses, and pity. It was the trade mark of inferiority Today Garvey has made "black" the symbol of honor and respectability. It is now the trade mark of a Race struggling valiantly up the heights of progress and cultural development. White is no longer a symbol of pur-ity-it is soaked in the blood of the innocents: it is laden with the black suit of greed, prejudice, deceit, hypocrisy and base immortality. Black -in the person of Jesus Christ-will again return to redeem humanity from sin and corruption and unfur

forever the flag of righteousness.
6.—Garvey's cry of "Africa for the
Africans," those at home and those abroad gave more publicity to Africa and the Negro than the adventures of Livingstone and Stanley and the exploits of Cecil

Rhodes. Before Garvey came it was a crime to speak well of Africa; we were victims of paid propagandists and mis-sionaries. The press and pulpit spoke of Africa as a land where heathen in his blindness bows down to wood and stone." Today Garvey has elevated Africa in the estimation of Negroes. Now it is popular to talk Africa, see Africa, live Africa Today we are proud of our motherland and are prepared to lay down our lives if necessary to make her remain "a black man's country." White imperialists who yesterday called Africa "the dark continent have caught a new vision. Today they call it "a white man's country; "the land of opportunities;" "the land of wealth and sunshine;" "the empire of wealth and sunshine; within an empire;"—and thousands of white men, women, and children who once feared its darkness are rushing there to escape taxation, poverty, death and disease, as well as the fury of a decaying civilization in Europe and North America. Thou-sands of black men who "lost nothing in Africa" now hope to find some-thing there. Yes, the great sales-man, Marcus Garvey, has sold Africa to millions of black men who do no regret the purchase.

-Garvey has done a great work in making the Negro conscious of his potentialities.

He told as well as demonstrated to the Negro that nothing within the mental consciousness of man is im And it must also be said possible. And it must also be said of him that his brilliant exhortations on the public platforms and in his many court battles converted the Negro from a cringing coward into

No one knows better than I do that our organization is losing prestige be of the human vultures, parasites, who have betraved and are betraying our trust and confidence. I know, too, that ignorance and superstition, and a pernicious whispering campaign that have driven feat and doubt and suspicion into the hearts of the Liembership, are the serpents that have poisoned our branches and brought about this some of our members have lost respect for authority. I know that our Constitution has become a mere scrap of paper to some of us. Yet all of

us agree that this is the only program which offers a practical solution to our problems. We talk glibly about re-organization. We talk about building anew. But you can't bring about a new order of things if you allow prejudice, malice, and jealousy to warp your mentality. I thin!, those who have resorted to throwing filth and dirt in Garvey's eyes and hold him up to ridicule and contempt have ermitted their enthusiasm to crowd their intelligence. No one who is in love with the Universal Negro Improvement Association wants to see t die. And you cannot save a drown ng man by spitting in his eye. stitutional means are provided to bring about any changes in our organization which we the members deem advisable. These changes cannot come by illegal practices and unethical procedure. We are being told that the Association will never amount to anything while Garvey re-mains at the head.
