I am sending this message on the eve of my departure for Geneva to urge the League of Nations to take up seriously and in earnestness the

Must Not Fail

But I must not fail-we must not fail. As I look around I see the whole world in distress, which, however, is crushing us more savagely than any other race of people. But -if all the Negroes had marched under the colors of the Universal Negro Improvement Association, if we had only loyal men and women associated with us-we could have even capitalized the present depression to break through our bondage.

Can't Spurn U. N. I. A. It is a pity. And yet it is not. The Negro now must learn that he can no longer spurn the U. N. I. A. program with impunity. He is now

Many things are oppressing my nind. I am thinking rapidly.

This I know that if all the Ne-

groes were to rally around our program and our organ, The Negro World, we can yet dictate terms to the imperialists and force them to let go their grip upon our dear Africa. I, therefore, appeal to all the Negroes of the world to stand behind our program and support it and The Negro World financially and otherwise. It is their duty to themselves and to their race.

I have the honor to be, Your obedient servant,

National Benefit Policies Are Now in Force Again

WASHINGTON, D. C .- (ANP)-Statements are being issued from the offices of the National Benefit Life Insurance company advising policyholders in all parts of the country especially in the states where the li-cense of the company has been revoked, that all policies now in force and prior to the revoking of the li-censes are good, and to carry on with

These statements are being issued due to the fact that some of the policyholders in different parts of the misunderstood the order cancelling the company's license to do business, thinking that they also canceled the policies, then in force. However, the orders simply restrict the company from doing any new business, and from the retrenchment program now under way, the com-pany expects to take care of its ob-ligations in a manner satisfactory to

Assemblyman David Paris who has o ably represented and is standing for re-election to the Assembly from the 21st Assembly District, has been championing the cause of the unem-ployed especially of Negro Harlem. Mr. Paris who has put twenty years in social work and knows the prob-lems of the Negro as very few do. He realizes that his sole mission in Albany will be to get every help and relief for his Negro constituents.

Mr. Paris has a very praiseworthy record at Albany. He introduced a bill to destroy all discrimination against the Negro. He supported Assemblyman James E. Stephens, of the 19th A. D., bill which tried to destroy discrimination by public utility companies. But both bills were destroyed by blind and bigoted republicans. Mr. Paris will re-introduce his bill if the voters will

return him to Albany. Assemblyman Paris tried to convince the up-state republicans what a progressive community the Negroes of New York were He told them that they could find among the Negroes, great artists, writers, jurists, lawyers and other professionals. All his pleadings were brushed aside by the republicans. Optimistic of Victory

THE ONLY WAY that the Negro can benefit politically is by making of his ballot an asset to himself, which he could best do by sup- family porting the dominant political party in his neighborhood. And in the city and state of New York, such a party is the Democratic party. The legro who votes Republican here is wasting his ballot.

The Democratic party of New York City has power to create and listribute jobs to the Negro in Harlem, and the Negroes have received their share in a measure. But all the Democratic district leaders in Harlem have pledged through The Negro World to give a proportionate share of jobs, both big and small, to the Negroes. It is therefore necsnare of jobs, both big and small, to the Negroes. It is therefore nec-bration on being back on dry land essary to support the Democrats and then see that they will carry out again, but if it is true that God put their pledges.

The Democratic members of the Assembly at Albany have been rying to create more jobs for the Negroes by forcing public utilities the white people black."
