Six Months \$1.50	Six Months \$2.00
Three Months \$1.00	Three Months \$1.25

Entered as second class matter at the Post Office at New York, N. Y., under the Act of March 3, 1879.

PRICES: Five cents in Greater New York; ten cents elsewhere in the U. S. A.; ten cents in foreign countries.

The Negro World does not knowingly accept questionable or fraudulent advertising. Readers of The Negro World are earnestly requested to invite our attention to any failure on the part of an advertiser to adhere to any representation contained in any advertisement in The Negro World.

SATURDAY, AUGUST 12, 1933

"QUO VADIS U. N. I. A."

THIS is the question which the world is hurling at the Universal Negro Improvement Association, August 1933 of the World. It demands a square, and many answer.

The years have passed over us; sixteen years and more. There has been a lot of talk during that period, a lot of promises, a host of expectations; and now the time has come when there should be something done to justify the existence of the organization.

We know that a good many hypocrites and blind fanatics will tell you that they are waiting to hear Infinity call. But, we, whose souls are lightened, know that we are not satisfied till this organization takes its rightful place among Negro organizations, and produces a program that is practical; a program, if you please, which will provide jobs, and a living for the countless thousands of our boys and girls scattered all over creation who are being sent out from schools and colleges to face a cold, stern, hard world.

Quo Vadis, U. N. I. A.? The cry will not die down. Rather will it continue to rise and increase in intensity, till with irresistible force it will sweep aside all obstacles in the path of action and achievement, on a constructive basis.

Let us be frank. If there ever was a time in the history of this organization, when leadership was at a premium, then that time is now. We need leaders; big, broad, capable, and efficient. We need leaders who know how to do, and what to do, and when, who will not falter in the face of overwhelming odds.

We need a leader who will take the redemption of Africa, Wellington said that Waterloo was won on the playing fields at Eton. The redemption of Africa must begin, where we are, in the scattered communities world over, where we are going to redeem the fatherland when we can hardly maintain our daily bread where we are at present? Let us be men and face facts. Let us not fool ourselves. We can not redeem our fatherland until we have built up, wherever we may be, the economic foundation upon which all our hopes must depend. Drink that truth. We are too prone to deceive ourselves with fine, flowery and patriotic phrases about what we are going to do in Africa; while we are neglecting the advantages of laying that economic structure, which will have to provide for all our needs, in every way.

Leadership is needed. Leadership this great organization is going to have. We have come too far to turn back. Why should U. N. I. A. leaders sit idle and see smaller, but more constructive, more progressive organizations, of one kind and another cutting into our membership. It is high time to wake up out of slumber. Build! Build! Build! is the war cry of the hour. We must build the Negro World in the present, and in the days to come. Build the race safe from poverty, ignorance, fear, and hunger. Then we can go out on our work of redemption of the fatherland. No industry and commerce Africa will remain a dream, and a vague one at that. U. N. I. A. leaders must get out and lead, or make way for honest, nobler, more constructive ers. We have had enough of empty words. Now is the time to build and lead for food, clothes, shelter and money.

Quo Vadis U. N. I. A.?

"GOING FORWARD WITH ROOSEVELT"

THE Negro World has adopted the program, and has called upon red-blooded Americans to rally to the call, in the battle against depression and its attendant evils. Therefore, because of the urgency of the situation and of the need for co-operation and co-ordination, employers of labor have a double duty in being loyal to the program which has been so boldly laid by the president and his advisors. Let us rally to the call. Be a volunteer in the fight for the return of national prosperity.

Every businessman needs the qualities of the hero to day; since the provisions of the National Recovery Act may strip him sorely; but if he will rise out of self, and see the betterment of his country as greater than individual comfort, he will not fail to heed the call from the White House.

This is not the day for partisan heckling of the program of the administration. Let us forget party lines for the good of the nation. Let us realize that greater good will eventually come to us individually, if we now come to the aid of the nation in this struggle to rid itself of the giant octopus, which is threatening to throttle our very economic existence. One for all; all for one should be the watchword of every lover of America, who sincerely hopes for a return to prosperity. Let us therefore take our standings.

LOOK TO THE FOUNDATION SAYS MARCUS GARVEY

Continued from Page 1

There is one cure for the many ills that beset the Negro, and that cure is, "freedom in a country of his own," which he can have by the acquisition of a new land, and financial independence. These are the forms of freedom that men seek to realize and which give men into opposing groups.

There are many races who have worked to escape from destruction of one form of control in order to enjoy what they consider to be the greatest freedom, which is the imposition of another form of control.

I will, at all times disagree with any man who tries to paint any other picture, than that of a government for Negroes on the continent of Africa. So come let us all join with Marcus Garvey to redeem Africa's land.

"GET OUT OF EGYPT"

By R. S. Percy Jarrett
THE JEWISH people, as they are called, are the Jews, were in the days of their captivity. History always repeats itself, and we are now living in the same old story.

In view of this basic fact which is now apparent to every race living man and woman of color, every one can see in the present platform and program of the Liberator's Knights of Industry, with its background of 250 square miles of virgin land in the Gola Forest, Liberia, which indeed is the promised land of the race, there is no denying the fact to wit that a Joshua has come at last on the scene in the personage of the Rev. Dr. R. S. Percy Jarrett, founder and president of the Liberator's Knights of Industry, to carry on this great undertaking of the Moses of the race, Hon. Marcus Garvey led to the foot of Mount Pisgah and climbed to identify the peak and viewed the landscape.

Analogously it does appear in the manner, as that of the Jewish race in its wanderings in the wilderness, as chronicled in Bible, with that of the state in which the race is placed today. One can feel seeing this comparative likeness of the state in which the race is placed today. One can feel seeing this comparative likeness of the state in which the race is placed today.

For fully fifteen (15) years, the Liberator's Knights of Industry, led the multitude of the race, as chronicled in the Central American.

"REVEALING"
PAST, PRESENT AND FUTURE
By ABIE WALLACE
Largest mallage on the continent

The Negro World in keeping up its progressive policy, announced a new and unique feature in its columns of the Liberator's Knights of Industry, the Liberator's Knights of Industry, the Liberator's Knights of Industry.

As much of you as ever, I would like to see a friend from the Liberator's Knights of Industry, the Liberator's Knights of Industry, the Liberator's Knights of Industry.

H. L. R. I want a job, Will I get one soon and what kind of work I do?

Ans: You have a right to know the things in a different light, and I can give you "talks."

THE PEOPLE'S FORUM

To the Editor of The Negro World,

Dear Sir:

Please allow me space in your valuable journal, "The Negro World," to make this exclamation, "Viva Marcus Garvey! Viva U. N. I. A., August, 1929 of the World."

I made this interjection, my dear reader, not by adulation, or stolid desire to write, but in a sober and conscientious survey of the world's attitude towards the weaker races, especially mine which is black.

After my 13 years of experience in the U. N. I. A., I have come to the conclusion that Marcus Garvey has undertaken the most difficult task man ever tackled, from the dawn of creation, in inspiring the scattered sons and daughters of Ethiopia to Africa nationalism.

One may ask What about Gandhi, George Washington and other great men, in their inspiration to their country and to the world? The reply is this—under the leadership of the hero, Gandhi, he speaks to 89 per cent of the Indian people in India, and George Washington, to a greater percentage, respectively, while to the contrary, the Negro was forced to leave his ancestral home, and was scattered all over the world; suffered under that brutal situation known as slavery.

During that time we lost of material consciousness, and our race psychology for over 250 years; so in Garvey's leadership, and undoubted spirit, while away from home, to organize the scattered sons and daughters of Africa, at home and abroad, to the solution of our problem, he has no comparative; consequently, he is the master man.

Here is another question, you may ask. Why so many setbacks, disloyalty and indifference within the organization. It is because the Negro for 250 years has been mentally, socially, religiously, commercially and industrially the slave of another race; therefore, he has not forgotten his master's lesson, and secondly he has not yet grasped the fundamental principle of the ideals of Garveyism. Therefore we have to sympathize with him, when he is continually defeating his own interest; but in this great truth, we are confident, that our seeds shall grow with the instinct of Africa redeemed.

Oh, the world of races, I challenge you to take a retrospective glance at my race, the Negro. See black boys and girls, black men and women, fit for every walk of life. See them in their social development, see them in the religious field, see them in the industrial field, see them in the commercial and professional field; and you will not hesitate to say with me that slavery once played a terrible part in the lives of Negroes, but thank God for giving us Marcus Garvey, File A, the history of all races, and their great men; and when we shall be written by our posterity, then you'll be convinced that Marcus Garvey's history stands foremost among those of other men.

Again I shout "Bravo, Marcus Garvey!" The race is proud of you. Thinking you for space, Mr. Editor, I remain,

Yours in the cause of Africa,
Harold H. Nicholas,
San Pedro de Macoris, R. D.

Dear Editor:

Please allow me a space in your paper. I read in the Negro World Saturday July 1, 1933 where Mr. E. B. Knox is reappointed by the President General of the U. N. I. A., and is given credentials as a personal representative in America. I feel that such action is unfair to the loyal members of the Association, and also against the law of the constitution, which reads, (Article 5, section 8, Page 9, "May 16, 1931 of 1931—All of which bear upon Mr. Knox's case. The issue of January 24 shows that Mr. Knox was found guilty of assault, third degree-verdict. Mr. Garvey is well informed concerning this for he made a statement in his weekly digest of October 17, 1931, of the world saying:

"Our admiration and thanks are due to the management, especially when we consider the signs of storm and stress we are going through. They have kept the fire of the U. N. I. A. burning. They have maintained the credit and confidence of the organization.

These are Mr. Garvey's own words. He again places Mr. Knox in office over us Negroes in America, after having served a term of 18 months in prison. Quoting an article in the Negro World, Saturday, July 1, 1933:

"The Honorable E. B. Knox has been re-appointed personal representative of the Honorable Marcus Garvey in America."

The President General advises in Mr. Knox's credentials that any difficulty and misunderstanding which Mr. Knox might have had with the organization in the past be

forgotten, in that Mr. Knox has assured him and the President General is convinced that he is willing to do his best for the organization and for the race. We, as members of the U. N. I. A., are willing to forgive and still willing to forgive, but we cannot forget these wicked things that are being done against us in this organization.

I am not writing what I think; I am writing what I know, for we Negroes are suffering now, from what has been done to us in the past by these so-called race leaders of the U. N. I. A. They talk good until they get in office, they work all right for a while, but when we know anything we are in court or involved in some affair that calls for the expenditure of money which the U. N. I. A. nor the member should rightfully pay. Here, I see where Mr. Garvey is re-opening a gate for all those leaders who want to come here into the association, those who as officers could do so and do the same thing they did before. I believe this: when the honor is given to anyone to look after the welfare of a people, a race, or nation, and he betrays his trust (which truly has been found out and is taken out of office, I think is very unreasonable that he again be entrusted to the same office, until he proves that he is subject to such office as called for by article 5, section 3, the constitution, Page 12, and also article 6, section 2, page 22.

May I recall to the readers attention my article in the Negro World of 1923, in the Pittsburgh American and also in my book, "Why I Am Dissatisfied." Rev. Z. D. Green Adjutant of the U. N. I. A., to stick to the constitution and grow strong and better in every way. What I did then in that article, I again say now, for it is wrong for Mr. Garvey to place Mr. Knox over the Negroes in America (unknowingly to the members, until he has already done it), after having been convicted and sentenced to prison for 18 months. This not only bears upon us Negroes in the association, since Mr. Knox is an officer.

Why does not Mr. Garvey give some one else a chance? For there are some one else, some good Negro in America and also elsewhere who have proven loyal to the U. N. I. A., as well as to him as a leader. Out of all the leaders who previously held high office in the organization, there remains only Mme. M. L. T. DeMena, who has worked hard to keep the U. N. I. A. going in America. For the past ten years she took charge as best she could, every duty that was given her; she stuck to her post through all the ups and downs of the organization further when Mr. Garvey was in Atlanta, penitentiary, she worked hard for his release and worked side by side with Mrs. Garvey, as well as to safeguard her from the hands of the enemy. She stays ready to go from country to country at Mr. Garvey's instructions.

In 1932 when Mr. Garvey's communication was cut off from the Negroes in America, Mme. DeMena went to Washington and so arranged that he could again be in touch with us; when the enemy was working a way to stop the circulation of the Negro World, Mme. DeMena was the one to get it on the press again; she is still working hard against those who are trying to take away the name of the organization from its members; and she is running the case.

And still, Mr. Garvey replaces Mr. Knox over her, as his personal representative in America; the Honorable M. L. T. DeMena resumes her position as International Organizer of the U. N. I. A. (August, 1929 of the World).

Now, if we will note the issue of the Negro World, January 23, 1932 it reads:

"International Organizer now in charge of American Field, feels confident that U. N. I. A. now in better shape."

We members of the U. N. I. A. feel the same way. Mme. DeMena sailed to the United States to do what she could to keep the work going. To tell the truth, she did some things that I can't see how she did, since for the past three or four years many have been unemployed and for that reason we were able to give her little financial support. Had it not been for her car she could not have gotten around as she did. Since we know she did all these things and is capable of handling and holding the job, why not let her continue to work as American Leader, until she has proven unworthy, and give another worthy leader the job of International Organizer.

I know well that these are men's jobs, but so far the men who have had the job and carry on until we men get enough fighting against each other and decide to do the right thing.

Zebedeo Green,
1st Vice-President,
Pittsburgh Division,
U. N. I. A., Aug. 1929
of The World.

The art of sacrificial living is learned at the fireside.

Are you master or slave in relation to the circumstances facing you?

New York City

Gentlemen:

We are planning a national publicity campaign in the interests of African Colonization. We realize that the wide circulation of the World would serve as an excellent medium. In so much as our movement is based on the Garvey principle we suggest that you devote a column to the publicity of the news of our organization. We believe that such publicity would arouse new interest in the ancestral continent as well as increase the circulation of the World. We are enclosing an article which would be rather long for a newspaper but which we believe will be interesting to your readers and will appreciate your favorable consideration even though it is necessary to cut it for publication.

We have had the co-operation of the Los Angeles chapter of the Garvey organization and seek cooperation with the national body to the end that your aims and ours may be realized. We have several interesting letters from leading Negroes including Dr. DuBois, Dr. Mordecai Johnson, Dr. Alain Locke and others which we feel would make good publicity matter and will be glad to send you copies if you are interested.

Thanking you in advance for the cooperation you can give. Believe me,

Sincerely yours,

James M. Jones

Secretary

American Negro African

Movement

Editor, The Negro World:

The article on page six of the Negro World of July 15th is a rather interesting one.

Such articles, to my mind, do not fit very gracefully into the Negro World. There is no mention of the writer's name. The article is headed "OPINIONS." From what I have gathered, however, the writer, Mr. Davis Lee, seems to feel somewhat slighted. His complaints are that every race has been represented at the World Economic Conference in England except the Negro race. He continued the complaint, attacking in the same breath the Negro Political pamphlets in the United States. I suppose that he believes they have not done their work faithfully enough, which prevents the Negro race from being invited to sit around the Round Table of an International Conference.

It is my honest opinion that this able writer does not stop to think while he writes, or he could not mistake an economical slave race, for the position of a nation with a recognized national flag. Let me ask this able writer not to wear out his nerve with the way American Politics are being conducted; for it is going ahead according to schedule; but, if he wants recognition of his race, and invitations to International Conferences, he should have to line himself up actively with the Universal Negro Improvement Association, and read the articles called, "Our Success Column," written by the Rev. R. F. Brown in every issue of The Negro World, and conduct his ways according to the advice he receives, for this is the only way out.

Yours in the cause of racial uplift.

Joseph W. Sweeney,

Brooklyn, N. Y.

WEST INDIES IN DRAW

Rain Ends Match With Durham

Cricketers in England.

Sunderland, England, July 31, (Canadian Press).—The two-day cricket match between the touring West Indies eleven and Durham ended in a draw today, when rain halted play shortly after the tea-time interval.

The scores were: Durham 256, West Indies 140 and 29 for three wickets.

The Durham bowlers prevailed against the visitors only Mervy, with 35 not out, and Valentine, with 27 runs, making any sort of showing on a tricky wicket.

The scores:

WEST INDIES

Barrow, run out 16

Christiani, st. James, b. Woodhouse 10

Grant, c. J. Adamson, b. Howell 9

Hadley, c. Dobson, b. Woodhouse 4

Hoad, c. James B. Howell 0

Da Costa, b. Woodhouse 7

Wiles, c. Dobson, c. Woodhouse 1

Smiley, b. Howell 7

Mervy, not out 35

Valentine, c. J. Adamson, b. Woodhouse 27

Mattindale, run out 12

Extras 18

Total 140

BOWLING ANALYSIS

Howell 40 3

Woodhouse 73 5

THE FORUM

By THE MANHATTAN CHALLENGERS

On Sunday, July 23, at St. Mark's Church, the Student's Lit. Association and the Yoruba Lit. Club debated the question of Birth-Control. The students in defense of the negative advanced the old tattered and worn argument that birth-control is not detrimental to human beings because it prevents poverty, overpopulation and, above all things, through its practice, only the best stock of human beings come into existence.

The Yoruba completely annihilated the defense. It is regrettable that space will not permit an enumeration of the brilliant manner in which it was done. However, for the benefit of those who were absent, we are going to deal very briefly with three of the major points advanced by the students. At the same time it will give those who wish to further the cause of the students an opportunity of answering through these columns. Any article with a semblance of reason will receive a reply.

We are giving our own reason why, we think, any one advocating birth-control has a very poor weapon when it is poverty, overpopulation and the breeding of the best. Poverty, everybody knows, is subjective and objective. Society has no control over subjective or objective poverty. It is solely left to the individual to adjust the cause from within.

No matter how wealthy a nation is, even to the capacity of having ten jobs for each of its men, there will still be poverty of a subjective nature. It is caused by lack of initiative, ability and, so to speak, force. They will always be many persons who for one reason or another, are going to live as parasites, they can live as parasites, they make no efforts to better their conditions. On the other hand, objective poverty is the result of society's system of laws. It permits an unequal distribution of wealth and wages that are so low that no matter how frugal and well behaved the wage earners, they can hardly exist. This condition, no matter how much ambition and ability people possess, forces them to live as parasites, they are forced to live as parasites in such a manner as to completely banish it from the world. Get that straight, we mean objective poverty. The remedy, no one can deny, is in the Encyclical Rerum Novarum of Pope Leo XIII. It is based upon a principle of cumulative justice and a minimum wage law. The minimum wage to be on a standard that permits any frugal man to support a family. President Roosevelt is conscious of the fact. It is clearly shown in his statement for legislation of minimum wage measures to child objective poverty is null and void. What we need is the practice of justice control not birth.

The argument for overpopulation is stupid and childish. How can there even be an excess of population when human beings do not live forever? When science discovers a method whereby men live forever, we will consider the question of overpopulation. And even then we won't discuss it until all the four corners of the earth are inhabited. It is like living with the bulk of people living in the large cities while all the suburbs go begging for a population, we won't discuss it at all. For the third part which says the practice of birth-control permits only the best stock to be born. There is some truth in it when applied to human beings. And if Malthus were here he would say, Mr. Manhattan Challengers, you are correct.

Human beings are rational and as such exercise the freedom of the will to its capacity. There are many persons who select the best partners and still produce offspring of criminals and prostitutes. Yet there are many from the gutter who produce sons and daughters of a saintly nature. We wish the advocates of birth-control, or positive eugenics as Malthus called it, would answer these questions: Why two persons of the best culture and refinement give birth to criminals and prostitutes? And why many from the gutter produce characters above board?

Enough for the birth-control sponsors. Poverty, overpopulation and the existence of criminals cannot be checked by controlling birth. The only remedy lies in an adjustment of the social order, proper distribution of population and a critical study of environments.

Chicago and Chicagoans

By Clifford Mitchell

A woman Writes!

During my last week in Jackson Prison, Mary Green Hayes, secretary of the Colored Women's Club of Michigan, who had been a reader of my articles for years, called at the prison to see me. This week she has been in Chicago, she has been in the International Council of Women of the World.

"You can't live another hundred years friends so make the best of this one." If this column can remain on the release of the press for some time I will be glad to bring out front a vast number of exhibits from our most interesting group of Negroes in this struggle to be reclaimed. Thank you and good-bye for now. It's Mary Green Hayes, signing off."

YOUNG JOURNALISTS PLAN

A NATIONAL PRESS CLUB

Chicago.—(A. N. P.)—A group of young Chicago newspapermen has taken in hand a big task of trying to organize a national press club. These reporters quite young in the game are striving to extend their acquaintance with newspapermen.

At their first meeting held in the office of a local paper, the Chicago World, the names agreed upon was the United Press Club. Temporary officers were elected for the Chicago branch, namely: Earl Morris, president, Elmer Campbell, vice president, B. J. Walker, secretary and Harry Tipper, treasurer. Their announced aim is to contact newspapermen through the country and have them to organize locals in their respective territories.

A time of depression presents an opportunity for growth of moral fibre.

Perfect happiness is attainable only in God.

Men are cowardly only because of fear of defeat.

Luck has been so infrequent that mascots are at a discount.

Each generation has its testing time.

CURRENT NEWS AND COMMENT

By BAXTER R. LEACH

Duke Ellington, the so-called "Aristocrat of Jazz" sailed from England for the United States, after a triumphal tour with his orchestra. Hanneb Swaffer of "The People" an English publication, writes: "Musicians from all over the Continent came to hear him. Yes, they are coming to hear the first house, and staying through two shows. So sensational is some of his trumpeting, that I advised him to call his Show 'Gabriel over the Black House'."

Catarina Jarboro the only one of our group, to 'make Opera' is the sister of Mrs. J. Dalmus Style, wife of the Mayor of Harlem. "Mayor Steele" recalls that for fourteen months he tried to place her with our Churches and Colleges for concert work, and that he was turned down. He seems very proud of the fact that he has been able to see her make good, and also to demonstrate her fitness to do the things he represented her to do. In other words the Mayor thinks he has the laugh on some of our so-called leaders.

At the Symphony Concert in Lewisohn Stadium Friday evening, Aug. 4, of which Paul Whiteman was the Conductor, three major musical numbers composed by Negroes were used. The composers were Don Redmond, Mr. Still and Duke Ellington.

The Mills Brothers, Radio Sensation of recent years, came on the air last week, after an absence of many months, due to the illness of John Mills. Judging from fan mail they have lost none of their popularity.

Negroes are playing an important part in the National Industrial Recovery Act. North Carolina Mutual, Supreme Liberty Life, and other big concerns have already signed up, and are living up to its code. The writer hopes that the Government will see to it that the minimum wage and hours of work will apply to all men regardless of race, color, or creed, whether in the SOUTH, North, East or West.

The four Americans jailed in Spain for striking a Civil Guard have been released. Their detention was a regrettable affair, but should serve as a warning to those Americans who travel abroad, obsessed with a superiority complex. We have met them abroad, and know this to be true—especially with the Southerner. A visit to Haiti, or any of the Central American Republics will convince you of the truthfulness of this statement. Why, they have even segregated the Post Office in the Panama Canal Zone. If a colored man goes for his mail, he must call for it at the window marked "Silver." The "gold" window is for whites.

The New Negro wants a larger share in governmental affairs, both State and National. As a result of this political independence, several capable young men have been nominated for office in this, and other cities throughout the country. In the 17th Assembly District of Brooklyn Wm. Pickens Jr., and Lewis S. Flagg Jr. have been nominated for the Assembly and the Aldermanic Board. It is interesting to note that these two candidates represent the highest type of citizenship and are brilliant young attorneys, practicing successfully at the Bar. This is a departure from the old order of things, where it was the custom to nominate some political ward heeler, regardless of fitness.

Fire At Gingerland, Nevils

Symond's Estate Destroyed

About midnight on Wednesday 5th, news reached Charleston of an outbreak of fire at Gingerland. Symond's Estate, property of Mr. J. H. W. Sampson, was destroyed, the whole of the estate buildings, except the dwelling house, which was left intact. Muscovado Symond's Estate was the only one sugar stored was also destroyed.

Each generation has its testing time.

MARITIME COLUMN

Terms Used in Shipbuilding

By BARRINGTON FORTE

Scantlings are the sizes of the different members, the frames, beams, floors, etc.; and a ship to "fill scantlings" is one in which the sizes of all the members are those issued by the classification society in which the ship is registered.

Classification Societies—These of which Lloyd's is the largest, oldest, and best known, keep registers of ships that are built to their specification. They issue complete lists of sizes of every member, of every size of ship.

Their representatives are in every shipbuilding centre, in every repairing port, and at every iron and steel works. Plans of the proposed ship are submitted to them. Their representatives overlook every detail of construction, and overhaul her every time she arrives in a British port, and also to demonstrate her fitness to do the things he represented her to do. In other words the Mayor thinks he has the laugh on some of our so-called leaders.

At the Symposium Concert in Lewisohn Stadium Friday evening, Aug. 4, of which Paul Whiteman was the Conductor, three major musical numbers composed by Negroes were used. The composers were Don Redmond, Mr. Still and Duke Ellington.

The Mills Brothers, Radio Sensation of recent years, came on the air last week, after an absence of many months, due to the illness of John Mills. Judging from fan mail they have lost none of their popularity.
